A Draft-You Catch Cold-Then Follows Coughs, Cold Stiff Neck

Neuralgia Especially in the piercing pain of neuralgia or the dull throb of headache is Sloan's Liniment wonderfully relieving. Laid

lightly on the part where the pain is felt, it gives at once a feeling of comfort and ease that is most welcome to the overwrought sufferer.

Hear What Others Say:

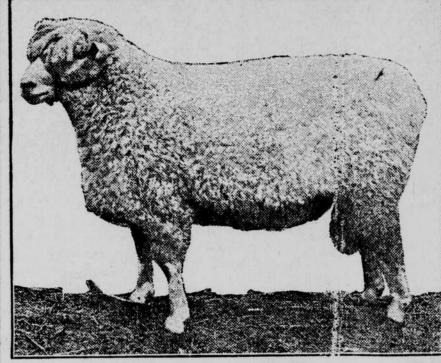

"There are no Liniments that equal Sloan's. My husband has neuralgia very often, he rubs Sloan's on his face and that is the last of it."—Mrs. V. J. Brown, Route 1, Box 121, Halls, Tenn.

"I have used Sloan's Liniment for family use for years and would not be without it. We have raised a family of ten children and have used it for croup and all lung trouble; also, as an antiseptic for wounds, of which children have a great many, it can't be beat. My wife sprained her ankle last summer and k was in bad shape. Sloan's Liniment applied enabled her to be as good as ever in a week. I have used it several times for sprains and rheumatism."—John Newcomb, R. R. No. 2, Keokuk, Iowa.

of poor shape. Eggs should be selected so that each and color when possible

When the package is ready to ship, place on it a label containing your address and the address of the customer, plainly written. Never fail to put your | ing the snow banked around the other name on anything that will help to advertise your business.

Feed Farm Scraps.

The waste from growing crops, the grain scattered at harvest time, the litter from the barnyard at feeding time, the scraps from the family tagrass-all these will go far to maintain a sizable flock of poultry, so that the outgo will scarcely be noticed.

Treatment for Egg-Bound. If a hen is egg-bound one of the

simplest treatments is to hold her with then have separate roosting quarthe vent over a dish of steaming hot water. Inject a little olive oil into instead of out of doors on the fences the vent and feed soft food for a few lays. An overfat condition is usually and skunks to carry away. the cause of the trouble.

Plenty of Grit. Keep plenty of grit and shell near the laying hens. Results will be noticed in a less number of egg-eating

WINTERING BEES IN THE OPEN AIR

Winter Chaff Hives Overcomes Objections.

(By F. G HERMAN) If the beekeeper tries to winter bees orders come in before having every- on the summer stands, in any form of a hive other than a chaff or doublewalled hive, it is my opinion that he will lose more in the value of bees exactly what you advertise to sell, or than the extra expense he would be at tion. While it is extremely annoying All grocers. Adv. in making chaff hives of some kind.

could be used for summer advantage to overcome. Get about four ounces gin shriveling.—Deseret News. receive the complaint from your cus- should be used. This thing of having outside winter cases to set over the Give everybody a square deal, and hives is decidedly a disadvantage in

When winter is over they cannot be used about the apiary during the summer to any advantage whatever, but the beekeeper must have a house or some other place provided for them to keep them from the weather or they will be warped and weather-beaten and will last but a few years. Hence, the construction of a summer and winter chaff hive certainly overcomes many of these objections.

After years of experience with chaft hives used in connection with sawvinced that there is nothing better along the line of hives for wintering

I winter my bees on the summer stands with very little loss. They have When the eggs are packed, put an plenty of good store-plenty of young other layer of excelsior over the top bees and properly packed-1 believe in late brood rearing, so that the hives will be full of young bees at the bemade for holding 13 or 15 eggs. This ginning of the winter-at least, this is

With too small an entrance in a damp climate you will be sure to have This box is provided with a wire moldy combs and more than the proper handle, and the cover slides into amount of dead bees. The trouble begrooves which may then be screened comes aggravated in the course of the winter by the clogging of the entrance with dead bees.

During heavy storms in winter it will save eggs from being filched by frequently happens that hives are encurious persons who can open the tirely buried in snow. While the snow is light and porous, air will penstrate it and reach the entrances of the hives, disgusts a customer as to receive a but should the snow become crusty or setting of eggs which are dirty and ice form at the entrance the bees would be in danger of suffocation.

It is well to have all hives facing setting will be uniform in size, shape southward, so the sun can shine on the entrance of the hives and keep them free from ice.

After a heavy fall of rnow we always sweep in front of the hives, leavthree sides, as it will do no harm there, but will help keep off prevailing

Job for Winter Days. One of these winter days is a fine

time to rig up a fanning mill and fan the small grain you expect to sow ble and the bugs and worms in the the coming spring. It is expensive to put off this job until you are ready to sow, and it is a good deal more expensive not to do it at all.

Separate Roosting Places.

If your poultry is allowed free range

LABOR WILL FIGHT PLAGUE

Plans Made for Co-Operation With National Association for Prevention of Tuberculosis.

A campaign for closer co-operation with labor unions and other groups of working men has recently been launched by the National Association for the Study and Prevention of Tuberculosis.

A committee has been appointed with Dr. Theodore B. Sachs, president of the Chicago Tuberculosis institute. as chairman, to formulate plans for immediate and future action. Other members of the committee are Samuel Gompers, president of the American Federation of Labor, Washington; George W. Perkins, secretary of the International Cigar Makers' union, Chicago; John Mitchell of the New York State Compensation commission. New York; Austin B. Garretson, president of the Brotherhod of Railway Conductors, Cedar Rapids, Ia.; Dr. William Charles White, medical director of the Tuberculosis league of Pittsburgh, and Dr. Dav d R. Lyman, superintendent of the Gaylord Farms sanaorium, Wallingford, Conn.

As the first step in the campaign a special health bulletin has been prepared for the labor papers and will be sent out monthly in co-operation with members of the international Labor Press association.

Franz Josef Land.

By annexing Fanz Josef Land, Russia increases the number, rather than the extent, of her possessions. The archipelago consists of about sixty islands, almost all of the group being covered with snow-clad glaciers. The Austrian pioneers believed they had discovered continuous land, but their successors, the f st of whom was Benjamin Leigh Smith, found that the acquisition was broken up into islands. Both Nansen and the duke of the Abruzzi have explored the group. Now that Austria's arctic territory has been captured, we may hear of the noisting of the British flag in Kaiser Wilhelm II Land and Luitpold Land. which areas in the Antarctic are German possessions. Wilhelm II Land was discovered by the Gauss expedition, and Luitpold Land, in the Weddell sea, by Lieutenant Filchner.

TAKE A GLASS OF SALTS WHEN BLADDER BOTHERS

Harmless to Flush Kidneys and Neutralize Irritating Acids-Splendid for the System.

Kidney and Bladder weakness result from uric acid, says a noted authority. The kidneys filter this acid from the the country where the little lambblood and pass it on to the bladder, kins play?" where it often remains to irritate and inflame, causing a burning, scalding bet." sensation, or setting up an irritation at the neck of the bladder, obliging stubborn Colds and irritated Bronchial you to seek relief two or three times during the night. The sufferer is in tholated Cough Drops—5c at Druggists. during the night. The sufferer is in constant dread, the water passes sometimes with a scalding sensation and is very profuse; again, there is difficulty in avoiding it.

Bladder weakness, most folks call it, because they can't control urinaand sometimes very painful, this is I think that some sort of hive that really one of the most simple ailments of Jad Salts from your pharmacist and take a tablespoonful in a glass of water before breakfast, continue this for two or three days. This will neutralize the acids in the urine so it no longer is a source of irritation to the bladder and urinary organs which then

act normally again. Jad Salts is inexpensive, harmless, and is made from the acid of grapes and lemon juice, combined with lithia, and is used by thousands of folks who are subject to urinary disorders caused by uric acid irritation. Jad Salts is splendid for kidneys and causes no bad effects whatever.

Here you have a pleasant, effervescent lithia-water drink, which quickly relieves bladder trouble.-Adv.

The Right Way. "So Will quarreled with his wife about mending his clothes?" "Yes, but they patched it up."

THIGK, GLOSSY HAIR FREE FROM DANDRUFF

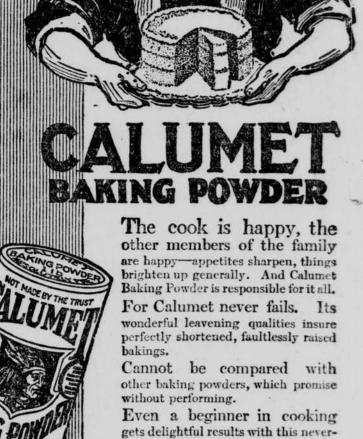

Girls! Beautify Your Hair! Make It Soft, Fluffy and Luxuriant-Try the Moist Cloth.

Try as you will, after an application of Danderine, you cannot find a single trace of dandruff or falling hair and your scalp will not itch, but what will please you most, will be after a few weeks' use, when you see new hair, fine and downy at first-yes-but really new hair-growing all over the

A little Danderine immediately doubles the beauty of your hair. No difference how dull, faded, brittle and scraggy, just moisten a cloth with Danderine and carefully draw it through your hair, taking one small strand at a time. The effect is immediate and amazing-your hair will be light, fluffy and wavy, and have an appearance of abundance; an incomparable luster, softness and luxuriance, the beauty and shimmer of true

hair health. Get a 25 cent bottle of Knowlton's Danderine from any store and prove that your hair is as pretty and soft as any-that it has been neglected or injured by careless treatment-that's all. Adv.
