Wonderful Exhibits From All Lands Show the World's Best Progress

From Beginning to End Magnificent Panama-Pacific International Exposition Will Abound With
Superb Educational and Entertainment Features.

By HAMILTON WRIGHT.
THE construction of the vast Panama-Pacific International Exposition at San Francisco was 95 per cent completed three months before the opening day, on Feb. 20, 1915. The early installation of thousands of tons of rare and costly exhibits from all parts of the globe and the participation of forty of the world's great countries have assured a celebration that will be unrivaled in its splendor, magnitude, interest and comprehensiveness.
From its opening until its close, on Dec. 4, 1915, the Exposition will abound with original features collected at an expenditure of many millions of dollars. It will present a cross section of human achievement. The Pan-

ama canal is today open and doing business on a far vaster scale than was predicted for it, and the Exposition, which celebrates the opening of the canal, is today revealed as the greatest manifestation of national achievement in American history. Here will be a neutral ground where even nations engaged in warfare will display on a scale never before equaled their progress in the arts, industries and sciences of peace.
Within three months before the opening of the Exposition as many as 2,000 tons of consignments had reached San

Francisco in a single day, and, far in advance of its opening, the Exposition had created an unprecedented interest throughout the world, and its opening was eagerly awaited.
In keen competitive exhibits there will be presented more than 80,000 single exhibits and groups of related exhibits portraying the results of the world's best efforts in recent years.
This wonderful Exposition, presented at an outlay of more than \$60,000,000, celebrates a contemporaneous achievement, the building of the Panama canal, and all exhibits that are entered for competitive award will be those that have been originated or produced since the great Louisiana Purchase Exposition at St. Louis ten years ago. The possible exception to this rule will be where earlier exhibits are

THE MOTHER OF LINCOLN BEACHEY, FROM THE TOWER OF JEWELS, 435 FEET ABOVE THE EARTH, AT THE PANAMA-PACIFIC INTERNATIONAL EXPOSITION, WATCHES HER SON LOOP HIS ONE THOUSANDTH LOOP.

When Lincoln Beachey, a son of San Francisco, on the occasion of his homecoming after breaking all world records as a daredevil loop of 999 loops, performed two entirely new and death defying stunts over the completed palaces of the Panama-Pacific International Exposition it was his aged mother who for the first time waved him on to fresh achievements. Mrs. Beachey held a place of honor, 435 feet up in the air, on the tiptop of the wonderful Tower of Jewels. From this aerie she was able to watch every erratic move of her daredevil son. She cried out only once. That was when he wrote the figures "1000" against the clouds, high above the two miles of completed exhibit palaces, significant of the looping of his one thousandth loop.

shown to illustrate the evolution of the processes of manufacture—as, for example, a display of a model of the first cotton gin in connection with the marvelous equipment into which it has evolved.
Many of the displays will be especially adapted to study by the delegates to great national and international congresses and conventions, of which more than 300, embracing almost every phase of human activity, have voted to meet in San Francisco in 1915. Delegates to the congresses interested in social progress and wel-

fare work will, for example, see in the Palace of Mines an exhibit three-fourths of an acre in extent, illustrating the manner in which the largest steel corporation in the world is caring for and plans to still further advance the welfare of its employees. In the Palace of Education they will be interested in a great United States government exhibit.
The great war in no way has diminished the prospect of attendance at the Exposition, and thousands of Americans will for the first time enjoy the educative trip across their native land. After the outbreak of the conflict the number of conventions deciding to meet in San Francisco proportionately increased. One of the most important of the assemblages will be the international engineering

This photograph shows James Earle Fraser's superb piece of statuary, "The End of the Trail," at the Panama-Pacific International Exposition. More than 800 beautiful sculptures are shown at the Exposition, the works of famous sculptors of the day. In addition to the sculptures shown out of doors, thousands of beautiful works of art are presented in the great Palace of Fine Arts.

Chamberlain Gave Eyeglass to Girl.
An amusing story is being told of the late Mr. Joseph Chamberlain. While he was crossing Westminster palace yard one day some years ago, he was accosted by a girl from the States with the cool request: "Mr. Chamberlain, please do give me your eyeglass for my cabinet at home." It was at once handed to her, guard and all, so promptly that the curio hunter apparently felt some remorse, and stammered: "Most likely I'm inconveniencing you." "Not at all," replied Mr. Chamberlain, as he produced from his pocket a morocco case, and took from it a spare monocle, which he screwed in position, and then went on his way smiling. It is said that every prudent person who wears a monocle carries a reserve in his waistcoat pocket, in case he drops his in the soup!

CIRCLE TOURS TO THE PACIFIC COAST

In planning "The Perfect Coast Tour" or the "See America Tour," Scenic Colorado is of first importance. No coast tourist could afford to say that he had not included "Scenic Colorado" either one way or the other in this world's greatest rail journey. Go one way via Seattle, Portland, and during the season visit either Glacier or Yellowstone National Park. Link together these scenic routes with the Ocean Coast voyage between San Francisco and Portland.

Through the season, various publications, special folders and the like will be available, descriptive of the Burlington circuit rates and through service routes.
