"The Difference"

By F. J. DeTamble, Charlotte Branch

A poet could take a worthless sheet of paper, write a poem on it and make it worth thousands of dollars.

THAT'S GENIUS.

Our government can take an ounce and a quarter of gold and stamp it with an eagle bird and make it worth twenty dollars.

THAT'S MONEY.

A mechanic can take material worth five dollars and make it into wheels worth a thousand dollars.

THAT'S SKILL.

A merchant can take an article worth fifty cents and sell it for a dollar.

THAT'S BUSINESS.

The Author of this can write a check for ninety thousand dollars but it wouldn't be worth a cent.

THAT'S TOUGH.

There are automobile makers in this country who use four thousand pounds of material to build an automobile and they will tell you that this automobile will serve them with pleasure and economy.

THAT'S DECEIT.

Everybody who is posted and wants the most for their money buys a "FORD."

THAT'S GOOD JUDGMENT.
