### LOUP CITY'S DAILY.

The November number of the Nebraska Record reached our office this week, increased in size and with a pleasing cover design.  
Among the many interesting articles in the November number is a good story at the Big Barbecue at Loup City, a tale of the first train service to this city, which was on June 4, 1886. This article is written in a highly interesting style and is closed with a number of articles clipped from Loup City's first and only daily, "The Daily Times," published on that day by O. B. Willard.  
A pleasing article on "Litchfield" and surroundings, is the first article in the magazine and is illustrated by a cut of the historical elm, where the fourth of July celebrations of long ago were held.  
The educational department of The Record is very complete in the last number and a continued story "Lohoma," a breezy story of the great outdoors, commences in this issue.  
As the subscription price of the Nebraska Record is only 25 cents a year we believe it is within the reach of all. It covers a field peculiarly its own and when you figure that it costs but a little over two cents a copy, the expense is trifling.
