SOME POTATOES.

C. O. Johnson, living three miles south of town brought in load of fine potatoes Friday which he sold to A. E. Chase. Mr. Johnson says that he planted just two and one-half bushels of seed on about one-half acre of ground, from which he harvested over 100 bushels besides having supplied his table all season. This spells, at least, 225 per acre. He says that after digging there was no small ones to cull out. It was about as fine a load of spuds as we ever saw, ranging in size from that of your fist to that of your double fist.

The basket social at the school house in District No. 31 last Friday evening was largely attended. A number went out from town. The program was fine and every one carried out their parts in good shape, which speaks well for the teacher of that district, Miss Elnora Cockran, as the children were very well drilled. The music furnished by Miss Fay Gallaway was very much appreciated and everybody present reported a good time. The sale of the baskets netted
