**The "SILENT SMITH"**

—Model 8 shows what should now be expected of a typewriter.

Ball Bearing; Long Wearing

The success of the L. C. Smith & Bros. Typewriters has been due to the fact that the wants of the user have dictated its construction. The user has decided in favor of certain improvements now incorporated in Model 8. Among them are:

**Silence of Operation**—The most silent running efficient typewriter ever placed on the market. Absolute silence has been very nearly attained.

**Decimal Tabulator**—A help in billing and tabulating. There is no extra charge for this convenience.

**Variable Line Spacer**—Enables the operator to start on a given line and space from point of starting; also to write on ruled lines whose spacing varies from typewriter spacing. A great help in card work.

**Faster Ribbon Feed**—Insures new place of impact for each typeface.

**Choice of Carriage Return**—Upon special order the new left hand carriage return will be furnished in place of the right hand return.

All the important features of previous models have been retained — ball bearing carriage, typebars and capital shift, back spacer, key-controlled ribbon, removable platen, protected type, flexible paper feed and automatic ribbon reverse.

Write for New Catalog of Model 8. It will explain why the L. C. Smith & Bros. Typewriter is a synonym for superior service.

day had the misfortune to break his arm. He was taken to Ashton to Dr. Wanek who set the broken member. If the readers remember it has only been a little more than a year ago that Stanley broke his leg. It sure looks as though fate was against Stanley, but we hope he sees no more trouble of this kind.

**A WAYWARD TONGUE.**

The chairman of the committee was addressing a meeting at a teachers' institute:

"My friends, the school-work is the bul-house of civilization, I mean—ah! He began to feel frightened.

"The bul-house is the school-work of civ—"

The smile could be felt.

"The work-house is the bul-school of—"

He was evidently twisted.

"The school-bul is the house-work—"

An audible snigger spread over the audience.

"The bul-school—"

He was getting wild. So were his hearers. He mopped his perspiration, gritted his teeth, and made a fresh start.

"The schoolhouse, my friends—"

A sigh of relief went up. Hamlet was himself again!

He gazed severely around. The light of triumphant self-confidence was enthroned upon his brow.

"Is the woolbark—"

And that is when he lost consciousness.

Same old story again. An Oak Park, Ill. man owns \$2,000,000. His son wanted the money and plotted to kill his parents. Since they are prominent people the would-be murderer is pronounced "mentally unbalanced." Of course, to be sure, etc.

Why even speak of Mexico, when speaking appears to be all that we have the courage to do?
