The "SILENT SMITH"

-Model 8 shows what should now be expected of a typewriter.

The success of the L. C. Smith & Bros. Typewriters has been due to the fact that the wants of the user have dictated its construction. The user has decided in favor of certain improvements now incorporated in Model 8. Among them are:

Silence of Operation-The most silent running efficient typewriter ever placed on the market. Absolute silence has been very nearly attained.

Decimal Tabulator-A help in billing and tabulating.

There is no extra charge for this convenience. Variable Line Spacer—Enables the operator to start on a given line and space from point of starting; also to write on ruled lines whose spacing varies from typewriter spacing. A great help in card work.

Faster Ribbon Feed-Insures new place of impact for each

Choice of Carriage Return—Upon special order the new left hand carriage return will be furnished in place of the

All the important features of previous models have been retained - ball bearing carriage, typebars and capital shift, back spacer, key-controlled ribbon, removable platen, protected type, flexible paper feed and automatic ribbon reverse.
