The consolidated school mass meeting held in the Wiggle Creek school house last Thursday was a successful affair. The house was packed and only two votes were cast against it. Supt. Currier had the state man from Lincoln with him and he showed everyone present that he thoroughly understood what he was talking about.  
Frank Papernick, who had such a close call from death in an automobile accident on the way to attend his sister's wedding two weeks ago, is still unable to lie down in the bed. He has had to sit in a chair day and night ever since the accident, but he is slowly getting better. It surely was a close call and one that Frank does not care to repeat again soon.  
Several farmers were getting out the remainder of their last year's corn crop the past week. Discing ground for oats has been the order of the day. Lots of oats sown now. Winter wheat is fine. The heavy winds of the past week did a lot of damage to hay and alfalfa stacks. Some of the stacks were almost cut in two. There will be hundreds of tons of hay and alfalfa left over this year. Route 2 has been almost free from hog cholera this year. Horses and cattle have come through the winter in fine shape. How different from last year?
