The Value of Thrift

France, Germany, Belgium, Holland and Switzerland have been the leaders in thrift. The smallest lots of ground are cultivated and made to yield its share in supporting the people.

The National Bureau of Education at Washington has estimated that the labor of the school children of this country which could be directed to the cultivation of school gardens, back yards and vacant lots might add \$200,000,000 to the national wealth each year.

I believe we will agree that there is too much extravagance and waste; that it is harmful to use as individuals, and as a nation; that we should endeavor to improve this condition.

Let Us Insure Your Home and Other Property

Do you know that 1600 dwellings burn every week in this country? Is your home insured? Are you sure your policy has not expired?

Do you know \$1500.00 a minute is the average fire loss in the United States? Examine your insurance policy, note the date of expiration, and especially whether or not you have sufficient amounts on the different items. If your insurance has expired—if you wish to increase the amounts—or make any changes, bring us your policies and let us advise with you. **Do it now.** Tomorrow may be too late.

The streets of Loup City are to be sprinkled this summer and the sprinkling was supposed to have been started on April 1. Because of necessary repairs having to be made on the wagon, no sprinkling has yet been done. The wind and dust on Tuesday was something awful and it is a relief to know that no more such days will have to be endured.

Not many people here are aware of the number of hand made harnesses that James Bartunek sells to people from a distance. Recently he shipped several sets of his hand made harness to Kansas and Oklahoma. The first of the week Herman Polenz came over from Ravenna to get a set of harness. Many farmers from Ashton, Arcadia, Litchfield and other towns come many miles to buy his make, which has a reputation for quality with everyone who has ever used goods from his shop. Mr. Bartunek does not try to see how cheap he can make harness, but how good and his prices are no higher than others charge for cheaper work.

Farm management surveys of the college of agriculture have shown that more than half the farms of the state are returning less than hired men's wages if the capital is credited with earning 5 per cent interest. A re-organization of the farm business is all that is necessary on many of these farms to make them profitable. This re-organization does not mean the introduction of wholly new systems of farming. Instead, this recognition would entail, in the majority of cases, merely readjustments in the present system of management.

The Careful man does not carry a load of debt. He is a careful man and instead of wasting his money he puts it in the bank where it is safe and where he can get it.

DEBT IS A HARD MASTER.
THE WAY NOT TO HAVE A DEBT YOU CANNOT PAY IS NOT TO MAKE IT.
THE "CAREFUL" MAN NEVER MAKES A DEBT, UNLESS BY DOING SO HE COULD SAFELY SEE A BIGGER "INCOME THAN "OUT-GO."
THIS IS HOW HE GROWS A FORTUNE.
