FIELD DEMONSTRATION.

The International Harvester Co., by O. S. Mason, their Loup City agent, will give a field demonstration of the Titan 10-20 horsepower kerosene tractor on Saturday afternoon, May 27, at the Dan Garner farm, one-half mile northwest of Loup City. The Titan tractor develops 10 horsepower at the drawbar and twenty horsepower on the belt. It operates successfully on common coal oil, a fuel that costs from thirty to fifty per cent less than gasoline.

There are a good many reasons why you should see the Titan tractor in actual operation. It is an all the year round tractor, does all kinds of work; plowing, disk and drilling. It will pull your binders or mowers. You can pull three wagons with it, or drag the roads. Also all belt work successfully and quickly done with this machine.

For further particulars read large ad elsewhere in this paper. It will cost you nothing to see this demonstration next Saturday afternoon and Mr. Mason will have an auto to take you to and from the grounds if you have no way to get there.

The Price, As Slim As The Suit

To look at Adler's Collegian Clothes, you might think they are a little outside of your purse-range—but "appearances are deceitful." Just you take a look at their price-tag and you'll see that they are within your reach.

You were probably puzzled because there's more style, fabric and workmanship-value crowded into every suit or overcoat of

ADLER'S Collegian Clothes

than into others at the price. It's a logical mistake.
