Do You Expect to Own a  
Home of Your Own?

We have smooth, rich prairie land that grows good wheat, oats, corn and alfalfa that we can sell on a small cash payment and give you ten years' time to pay the balance. Why rent land when you can buy on these terms? If you are interested it will pay you well to investigate this at once.

Engineer Wolfe, who has just returned from a visit to Comstock, reports that the irrigated corn under the Long Wood canal promises a yield of 60 to 80 bushels per acre. Mr. Wolfe says that each man irrigates from 10 to 20 acres per day and only one irrigation is used this year to produce the corn crop. This canal has been operated the past 15 years, always giving good results—the irrigated corn crop some years yielding as high as 100 bushels per acre, and the operating expenses of this canal being only a mere trifle per acre each year.

The Boston Bloomer baseball team and the Loup City team played an interesting game Sunday afternoon at Jenner's park. The Bloomer team was supposed to be a team composed of women, but had only two women on their line-up and they put up a very bum exhibition of ball playing. The other seven players were right there when it came to playing ball, however, and made up for the shortcomings of the other two. The local team played a good game of ball, but were defeated by a 5 to 4 score. Gilbert pitched for the locals and was in good form. The game was attended by a large crowd.
