

THE LAST APPEAL

The day of the settlement of the Greatest Issue ever before the Voters of Nebraska is drawing to a close.

SHALL NEBRASKA BE A DRY STATE?

Every statement sent out by the Nebraska Prosperity League belittling Prohibition in other states has been shown to be false or misleading. **THERE ARE NOW NINETEEN DRY STATES**, but the Prosperity League has not had a statement from the Governor of any one of these states or from any Judge of the courts, or from any other state officer, saying that Prohibition had not been a success, while the Nebraska Dry Federation has published letters from nearly every Governor of the dry states, testifying to the beneficial results of prohibition.

Nebraska is among the very best states in the Union, not on account of the saloon, but in spite of the saloon. Nebraska land is worth more than Kansas land, because it raises better crops, and not because of booze.

Every state that has adopted Prohibition has made repaid advancement in all lines, both material or moral.

The great corporations have outlawed the saloon. It is a menace to their business. It is a menace to the interests of any community in which it is situated, and never pays back even in dollars and cents one-half the costs it makes. The saloon never brings better business to anyone except the saloon itself.

It stands as a Constant Temptation to Boys, and should be suppressed. Voter do your duty, and

Vote Nebraska Dry!

W. C. T. U.

Vote For
Alonzo Daddow
Republican Candidate For State Representative

be used for the improvement of the school. Pupils and teachers cordially invite all voters and patrons to come and help make this a success.

People the time to vote is at hand. Do you know who you are going to vote for? No one will have to be asked this question that is fully acquainted with Alonzo Daddow, candidate for representative of the 57th district. Can you find a man with a cleaner record in the state of Nebraska? Wouldn't the people of the 57th district be proud of such an honest man to help make the state laws. Then why not vote for him at the coming election. Your friends are going to, so grab your hat and off you go. You won't need your coat as the political calendar says its going to be a warm day at the polls. Just remember Daddow, you will find his name on the ballot.

CLEAR CREEK SAND.

J. C. Hill shipped some cattle Monday.

THE BROKEN LAW AT GARLAND THEATRE

Tuesday Evening, November 7. 10 and 15 Cents.

Mr. Farmer—Mr. Consumer

YOU PAY THE FREIGHT

Your interests have been imperilled because you have not been consulted.
Congress put through the Adamson railroad law under pressure of the President. That law is not even an 8-hour law—it is simply a law increasing wages of trainmen, who threatened a strike if they didn't get an increase. It merely provides that ten hours' pay shall be given for eight hours' work, thus increasing the pay of engine and trainmen 25 per cent. Under a U. S. statute now in force these engine and trainmen may work 16 hours a day. Thus, an engineer getting 80c an hour will receive under the Adamson law \$16.00 for a day of 16 hours, where now he gets but \$12.80.
The railroads say this increase in wages will amount to \$100,000,000 per year; the railway unions insist that the increase will be but \$60,000,000 per year.
But this is not all. The engine and trainmen are but 20 per cent of the railroad employees, and now the other 80 per cent are preparing to demand equal treatment.
President Wilson has said that this increase in wages, if necessary, shall be taken care of by an increase in freight rates, and, of course, an increase in freight rates will be necessary. In fact, the Adamson law not only purposes to reimburse the railroads in this manner, but the railroads can be depended upon to get more.
Nebraska is in the middle of the continent and no State has a longer haul to the Atlantic or the Pacific; therefore is it not evident that this bill is of vital importance to every farmer and consumer in Nebraska, as these, and not the railroads, are the ones who are to pay the cost? For years Nebraska farmers fought for lower freight rates and succeeded. Now we are going back to the old ways, with a prospect that rates will be higher than ever before in the history of the State.
Farmers and consumers of Nebraska, you remember how you have struggled to get the rates you are entitled to. Are you going to submit to this new imposition—this action of the President and Congress to undo your work of years?
