## THE TRUTH ABOUT PILES

Read this Ord Man's Letter

Ord, Neb., Dec. 15, 1916.

Dr. Rich,  
Grand Island, Neb.

Dear Doctor:

I have taken your pile treatment and am very well satisfied and pleased that I have been able to obtain a cure without an operation. It gives me a great deal of pleasure to send you this letter for the benefit of many others I know are suffering as I did. My advice to them is to take your treatment. I recommend you most heartily for the good you have done me, and will be glad to answer any inquiry made of me.

E. L. JOHNSON,  
Ord, Neb.

Ed Johnson is a well known stock buyer, has lived in Ord for many years, therefore his letter should convince you of the truth of my claims. I positively guarantee to cure your piles without cutting, either of chloroform. The dangerous complications arising from surgical operations are several, and are frequently unavoidable. Some operations are necessary, but a surgical operation for piles—NEVER.

Why endanger your life, when there is an easier and safer way to obtain the same and even a better result. Stay on your feet, tend to your business, and work while being cured.

Dr. Rich, Specialist, Grand Island, Neb., piles and rupture cured without an operation. Chronic diseases of men and women. Skin and blood diseases. Examination and consultation free.

We had an old fashioned country dinner (Family Style) at the Litchfield hotel on Christmas day. Alfred Flint furnished the plum pudding that was sent to him by his daughter, Mrs. A. G. Bower, of Kearney. The sauce was appropriate and the chicken fine and the time Par Excellent.

Three brothers of Frank Hartman, came over after his remains. They left for Amherst on Thursday afternoon. Henry Arnett hauled the body. Our undertaker C. H. Potter cleaned up the parts and bound them together as well as could be done and placed them in a casket. It was all that could be done.

The remains of Frank Hartman's body, who was run over by 44 going east on Monday evening was brought up from Hazard on Wednesday morning by Dr. Rydberg and Charles Potter. A number of us old neighbors of his are satisfied without a doubt after careful inspection that it was Frank Hartman, although he was chopped all to pieces. His clothes and his eye that he shot out and the bullet scar are plainly visible.

### MUST BE CORRECTED.

It is necessary for the good of the country that the republican party continue to exist. There are many issues which the republican party, if brave enough, can take a hand in settling. If there had been free voting even among the white men of the south President Wilson would not have been re-elected. No law prevents a white man from voting the republican ticket

in the south, but public opinion restrains him. The old rebel cause has considerable to do with the south as a voting proposition. But under present conditions there is no more freedom of ballot in the south than there was in Poland.

President Wilson started in the present campaign with the solid south assured. He had 120 electoral votes. It was scarcely necessary to count the ballots from the south. Nobody has been reading the returns from the solid south. In the face of this supporters of the president have begun glorifying him as a new discovery in high power manhood.

This country has continued this injustice for over 50 years.

You can make a campaign in Dakota or Nebraska or in Montana or Kansas, but you cannot make a campaign in the old south, in the confederate states as they were. One of two things ought to be done. These southern states ought to be deprived of a large number of electoral votes. They have disfranchised the negro by one process or another, yet the negro is counted as a voter and a man in the distribution of members of congress and members of the electoral college. The south ought not to have the benefit of the negro in making up their representation in congress or else they ought not have power to disfranchise him.

The entire civilized world knows of these conditions and knows that the American people have not had the courage to straighten the matter out by doing justice.

If the south disfranchise the negro the south ought to bear the consequences of his loss in representation.

Every injustice which is tolerated and not settled as soon as it is discovered becomes a danger to the republic.—Des Moines, Ia., Capital.
