Western Part of State Send Big Delegation to See First Governor From Their Section Seated.

Lincoln .- Nebraska's new governor, Keith Neville, took the oath of office and was formally inaugurated before a joint session of both houses of the state legislature last Thursday with impressive ceremony Governor Neville took possession of the governor's office after the inauguration ceremony, being escorted there by the retiring governor.

Visitors from Omaha, North Platte, Grand Island, Kearney and other cities were present in large numbers, the western portion of the state send. ing quite a delegation to see the inaugural of the first governor hailing from that section of Nebraska. Following is Governor Neville's

message in condensed form:

PROHIBITION-"Our duty is obvious; we will keep faith with the people; we must honestly, conscientiousand intelligently endeavor to prohibit the sale and manufacture of intoxicating liquor within the state af ter the amendment becomes effect. ive.'

The spirit of the amendment does not propose abridging the rights of the individual save as necessary to prevent the sale and manufacture. The governor should be authorized to appoint a public welfare board, of men "honest, fearless and capable," to gather information of law violations, assist in prosecutions and determine whether or not local officials are doing their full duty.

The attorney general should have power to aid local prosecutors or act as a special prosecutor.

money can be saved without sacrificing nutriment. "Cereals, such as cornmeal, hominy, and especially oatmeal," the bulletin says, "are rich in nourishment, and are much cheaper than patented cereals. "American cheese, dried beans, and peas are comparatively cheap, and con-

tain a great deal of protein, which is the most important food element found in meat.

"Oleomargarine is a very satisfactory and economical substitute for butter. Unfortunately, its use in public institutions is prohibited by law.

"Rice is very cheap food and can be served in many different styles. It should be used more frequently than it is in the dietary of those of moderate means. It contains a very high percentage of carbohydrates, one of the very necessary forms of nourishment. Everyone knows how extensively it is used among the peoples of Asia, where it has served as the chief article of diet from time immemorial.

"It should not be necessary to state that bread, preferably of whole wheat, a form which is rich in very important food elements called 'vitamines,' also sugar and potatoes, should occupy prominent places in the dietary of the working man and woman.

"There are many other cheap foodstuffs, a notable one being macaroni and cheese. When these are used judiciously, they serve to lessen the cost of the dietary without in any way impairing its food value.

ONCE A DAY OFTEN ENOUGH

Assertion Made That Women Need Not Put In So Much Time Washing Dishes.

"The careful housekeeper will always resent the suggestion that once a day is often enough to wash dishes," writes Dr. H. Barnard in "Table Talk" in the National Food Magazine. "She cannot train herself to allow soiled plates and silverware to stack up from one meal to the next, for she has been taught that such actions are evidence nf. shiftless, slovenly housekeeping. As a matter of fact, along with many other notions which are fixed in the operation of the home, both time and energy are saved by cutting out two of the three daily dish-washing jobs.

Doctor Barnard goes on to recite the experience of one housekeeper who actually dared study the homely work d vashing. One week she washee dishes three times a day; the next week she washed each day's dishes altogether. She used the same number of dishes each day in both weeks. She found that it took her 51 minutes a day to wash after each meal and 41 minutes a day to wash them once a day.

This took account only of time, but there was a considerable additional saving in gas or fuel consumed by. heating water once instead of thrice a day, to say nothing of the saving in

Butter a baking dish, sprinkle with finely-chopped parsley, pour in the corn mixture, stand the dough in a pan of hot water and bake about twenty-five minutes. Serve with tomato sauce.

Steamed Brown Bread. One cupful molasses, two cupfuls sour milk, one-half teaspoonful salt, one teaspoonful soda, three cupfuls cornmeal, one cupful either white or graham flour. Steam in covered dish three hours. The kind of flour can be varied to suit taste. Equal parts of graham and cornmeal can be used.

This is very good sliced and reheated in the steamer, making an excellent Sun.

Refreshing Drink.

A most refreshing and nourishing drink is made from half a glass of sour cream, half a glass of rich milk and a pinch of salt. Beat together with an egg beater until light and smooth. Pour into a tail glass, over the top put a thin coating of pulverized nut meats, and over this a scant grating of nutmeg. Served cold with a couple of crackers, this makes an appetizing light luncheon.

Prune Almond.

Boil together one cupful of granulated sugar and one-third cupful of boiling water without stirring until it forms a soft ball in cold water. Pour it over the stiffly beaten white of an egg and beat until creamy. Add onehalf cupful of stoned stewed prunes and one-third cupful of blanched chopped almonds. Beat well, then put between layers of cake.

Junket. The following recipes are suitable for small families: Crush one-fourth junket tablet, let dissolve in one tablespoonful cold water, heat one cupful milk, two or three tablespoonfuls sugar, take from fire, add one-half teaspoonful vanilla and the dissolved tablet; let stand in warm place until it jellies, then set in cold place.
