These letters stand for "MUTUAL BENEFIT SOCIETY"—the society you are joining when you come to this bank to do business.

You come here expecting to derive help and benefit from your dealings with us. We should be foolish indeed not to advance your interests in every way possible, for our success depends vitally upon yours. Hence our heart-to-heart service—a service that spells Co-Operation is its broadest sense.

**Mr. Ford Owner, Listen  
Seven Reasons Why You Should Have  
Your Cylinders Rebored and Fitted  
With Oversize Pistons**

1. Removes and trues the walls of the cylinders and leaves them as smooth as a gun bore.
2. The pistons fit closer than in a new block.
3. Stops the loss of compression.
4. Stops the knock and vibration of the engine.
5. Gives the engine more power as the cylinders are larger.
6. Stops the carbonizing, as less lubricating oil is necessary.
7. A rebored block will wear longer than a new one due to the fact that the walls have been seasoned and hardened by the heating and cooling of the engine while in use.

We are fully equipped to rebore Ford Cylinders and to fit them with oversize pistons 4-7

Box Butte county is to retain the services of the county agricultural agent and continue the progress made in advance agricultural work. The commercial club of Alliance was active in obtaining favorable consideration by the county commissioners on this matter. As a result of petitions and a research into public opinion it develops that the sentiment among the farmers and business men was overwhelmingly in favor of the county supporting this work out of the treasury. Mr. Seidell, the present farm demonstrator, will be retained at that work for the coming year.
