GOOD ROADS A PERSONAL RE- represented, and he buys. SPONSIBILITY.

Perhaps no other feature of civic reform or improvement of recent years ly interested to talk about them. has attracted so much attention as has that of road building. All over our body knows it pays. broad land, from ocean to ocean, from thusiasm is rolling. The people are realizing that they must have better roads, and the machinery of government in its taxing capacity is being ever more and more strained to meet this demand. But while there is a certain respon-

sibility resting upon the state in the maintenance of our highways, we are in danger of forgetting that an even greater responsibility rests upon us. individually, as citizens. The reason why we sometimes lose sight of this for his products. responsibility is that we Americans have gotten into the habit of working out all such matters through the medium of taxation. If we want a new road opened, we levy a tax. If we want an old road macadamized, we tax some more. Is a bridge to be built? We impose another tax. We tax and we keep on taxing, and this regardless of long the struggle. the fact, that we all know that the hardest money to give up is that which to pay his yearly taxes and think noth-

We depend too much upon taxes. We should depend more upon individual and personal effort. A lively neighborhood interest in good roads is worth all of the taxes you can wring from unwilling pocketbooks. A determination by a united citizenship of a county that their roads shall excel is worth more than all of the road commissioners in existence. Road commissioners work through devious ways to reach their object. The united sentiment of a people works direct to the object. It determines what is wanted and then takes the most direct route to accomplish its ends.

Do you favor better roads in this community? Then go to work and arouse a healthy community sentiment that will demand them. When that is accomplished good roads will be the

And just a few words more. Realize your own responsibility. Say to yourself, "the roads of this community belong partly to me, and I owe a duty to them." Don't depend upon a benevolent government, national, state, county or township, but shoulder your own responsibility. Then you will be in a fair way to get your neighbor to do

Try it!

## WHY ADVERTISING PAYS.

Everyboy reads the ads and nearly everybody remembers what they read. Mrs. Jones remarks to Mrs. Smith that she simply must go to the store words: "For as much as the President and get a new dress pattern, or a has said that I am worthy to be a citiwinter coat, or possibly a new hat. zen of the United States, I now prom-Mrs. Smith has read of the latest creations at some store and immediately hands, my head, and my heart to the springs her knowledge upon Mrs. doing of all that will make me a true Jones, who simply can't resist the American citizen. temptation to go and see for herself. Once there she generally buys.

Farmer Hankinson needs a new harness, or a plow, or some other implement for progressive farming. His neighbor has read the up-to-date ad the statement of this highly respected of the implement house in the local pa- resident will banish all doubts: per and incidentally mentions that Soand So carries a good article which he is advertising quite heavily. > THE ARROW AND THE PLOW That is a pretty little cermonial which Secretary Lane has devised for making full-blooded American citizens out of Indians. The Indian is brought forward and informed that a federal commission, having investigated his circumstances has determined that he is entitled to take the responsibilities of citizenship, by being released from the paternalistic care of the Indian Bureau. The Indian is handed a bow nd arrow, and is directed to shoot he arrow. After doing so, he is told o take into his hands the handle of a plow. Then he is informed: "You have hot your last arrow, but you may keep hat arrow, it will be to you a symbol of your noble race and the pride you eel that you come the first of all mericans." With reference to the plow he is told that 'the white man lives by work. From the earth we all must get our living and the earth will not yield unless man pours upon it he sweat of his brow." Having being presented with a flag, the new citizen takes it in his hands and repeats these ise to this flag that I will give my

Why do your cows give less milk in winter than they do in summer? Just because nature does not supply J. J. Golus, farmer, Loup City, them with grasses and green food. says: "I was annoyed by having to get But we have come to the assistance supplies in season, only, of course, in guarantee that this remedy will make your cows give more milk, and better

Omaha, Neb., Jan. 24. February will be an unusual active month for conventions of importance will be held.

The Retail Clothiers come on Feb., 20 and 21; the Nebraska Jewelers' association meets the 22 and 23, just one day after the Nebraska Opticians; the Known the world over for superior sewing qualities Hardware Dealers meet February 6 to Not sold under any other name.

MANY ATTEND ORGANIZED AGRI-CULTURE.

All attendance records were broken at meetings of Organized Agriculture at the University farm, Lincoln, Jan. 15 to 19. From the time the gavel stock remaining. sounded for the opening of the initial session it was evident that this year's attendance would far exceed all pre vious high marks in attendance. At the close of the third day, Wednesday, nearly 6,000 had been present at University farm meetings, a figure equal to the estimated attendance of last year. The press of the crowd was so great that overflow meetings had to be arranged to accommodate those who could not find standing room in convention halls.

#### SHOPPING HINTS.

If housewives would put aside samples of textile fabrics along with data as to date of purchase and price paid, this information would form the basis for more economical buying later on. is the suggestion offered by the home economics department of the state agricultural college.

Economical buying of fabrics calls for a wider knowledge and more discrimination than ever before, owing to the use of new methods of manufac ture, new machinery, and new fibers. For example, ramie, a new fiber stronger than linen, is coming into use for a number of textiles used in home furnishing. Also, artificial silks are very tempting because of their beautiful luster, though they cannot be washed successfully.

#### MIDDLE WEST MERCHANTS COME TO OMAHA IN MARCH.

Omaha, Neb., Jan. 25. Spring market week, that time when merchants of Nebraska, Iowa, South Dakota and Wyoming gather in Omaha for pleasure and business has been set for the week of March 12th.

Chairman Kelley of the Manufacturers and Jobbers Committee, under whose auspices the event is held, declares that more than 1,000 merchants will be on hand. Business and pleasure will be mixed in the right proportion, according to Mr. Kelley, to drive away ficial announcement that a corpora- biggest and best year in Nebraska and

SOME COLD SNAP. Twenty-eight below this morning is probably the coldest it has been here this winter. February is starting out in great shape. We thought winter was over, but from the looks of things spring has not yet arrived.

#### EXERCISE BREEDING HERD.

Exercise for breeding animals is especially important at this time of the year inasmuch as they are not likely to move about enough, says the animal husbandry department of the college of agriculture

An excellent method of providing exercise is to place feed at some distance from the shelter. Sows, cows, and mares will be kept in good condition by this means, will experience less trouble at birth, and will produce stronger offspring.

#### A POETICAL RECIPE.

## HOGS \$11.50--NEW RECORD

Fat Lambs Generally Steady-Values Not Quite As Good As the Latter Part of Last Week's High Close, Though. None Over \$14.25 Early-Number of Sales at That Figure-Feeders Sharply Higher-Medium Weights \$14.15. Old Sheep Steady, Too, if Anything, Stronger.

Union Stock Yards, South Omaha, Nebraska, January 30, 1917. The week opened out with a very respectable run of cattle, 350 loads, or about 9,200 head. Vigorous competition for the choice, weighty beeves and for the best yearlings created an active market for anything in these lines. The good to choice beeves sold readily at \$10.60@11.00, and the fair to good 1,050 to 1,300-pound beeves went largely around \$10.00@10.50. Supplies of she-stock were tolerably liberal and the good to choice grades at \$8.00@ 9.00, were about steady.

Quotations on cattle: Good to choice yearlings, \$10.50@11.50; good to choice beeves, \$10.25@11.10; fair to good beeves, \$9.75@10.25; common to fair beeves, \$8.00@9.50; good to choice heifers, \$7.75@8.75; good to choice cows, \$7.50@8.25; fair to good cows, \$6.50@7.50; canners and cutters, \$5.50@6.50; veal calves, \$8.00@ 11.00; bologna bulls, \$6.00@7.00; beef bulls, \$7.00@8.50.

The run of hogs here for Monday was just about normal, arrivals counting out 134 cars, or 9,500 head. Shippers took about their usual share, buying mainly the good lights and butchers on a 5@10c higher basis, and packers paid fully 5@10c higher figures for the butchers and heavy kinds. Bulk of the hogs sold at figures that were a big 5@10c higher, most of the sales landing at \$11.00@11.40. Several loads of the best heavies reached \$11.50, the top, and a new record for this market.

A liberal run of sheep and lambs showed up for Monday, receipts were estimated at 67 cars, or 16,000 head Fat lamb trade was a little draggy at the start, but when traders got down to business it was at figures that were fully steady with the close of last week. Early sales brought nothing over \$14.25, but quite a number of sales were made at that figure. Bulk of the desirable stuff brought \$14.60 and better. Choice fall clipped lambs made a record of \$12.50. Best ewes brought \$10.25, while quite a bit of the better stuff sold upwards from \$10.00.
