Electrified Homes

Electricity is now fast superceding old methods in many departments of the home. The modern home—the COMFORTABLE home—now has

- Electric Heaters
- Electric Irons
- Electric Lights

and many other labor saving and cost saving appliances. It is the ideal force—no danger, no annoyance, no failure. You are losing half the enjoyment of life if your home is not electrified. Let us wire your house for lights.

We handle the Almo Lighting systems for farm homes. Call and let us explain them to you.

Just about the time an article of diet reaches a sufficiently high price to be really toothsome and appetizing, along comes some meddlesome highbrow and declares it fatal to one or more of the pet ailments of mankind. Spuds are now declared to have a special grudge against the little catarrh devils and we are warned against eating them.

You say, Mr. Merchant, that you don't have to advertise because you have been in business so long that everybody knows you. Well, there is a certain mail order concern in Chicago that has probably been in business as long as you have, and we will bet a nickel to a ginger cake that every person that reads these lines can call the name of that firm. And we will bet, further, that over half of your customers have catalogues of this firm in their homes right now. They see the value of advertising. Can't you?
