STOCKMEN IN WEST ALERTED
Evidence to Substantiate Reports of Unemployment of Iowa Farmers and Providing Funds for the Payment of Livestock Producing Farmers Submitted to House

WASHINGTON—Attention must be directed to the fact that the stockmen in the West have been hard hit by the depression and by the War. The depression has caused a great decrease in the price of livestock, and this has been further compounded by the War. The result is that the stockmen are finding it difficult to make a living.

To the situation must be added the fact that the War has caused a great decrease in the demand for livestock. This has had a serious effect on the stockmen, who are now finding it difficult to make a living.

To the stockmen must be added the fact that the War has caused a great decrease in the demand for livestock. This has had a serious effect on the stockmen, who are now finding it difficult to make a living.

The situation is critical, and the stockmen must be given assistance. They must be given relief, and it is necessary to start immediate investigations into the situation in order to find a solution.

George W. Brown, a farmer in the area, said: "The situation is critical, and we must act immediately. We must give the stockmen assistance, and it is necessary to start immediate investigations into the situation in order to find a solution."

The stockmen must be given assistance, and it is necessary to start immediate investigations into the situation in order to find a solution.
