Cutting Out Waste

Our standards of values are changing. We want better clothes, better food, better houses than our forefathers had. We plan differently than they did. Money is more plentiful with us, but competition is much keener, and therefore we are learning to cut out unnecessary waste.

The board of county supervisors met Wednesday and are in session Tuesday, Wednesday and Thursday as a board of equalization. They will meet again Friday as supervisors to wind up the balance of the county's business. Loup City has a brand new \$35,000 school house. Upon the roof of this elegant building a two-by-four has been nailed and projects a few feet out in front. A long time ago a new U. S. flag was nailed to this two-by-four, and it is there yet—all torn to pieces and wrapped around the projecting plank. The abuse of the flag in that way upon a public building should not be tolerated. The unsightly two-by-four should be removed with the flag that is in rags and a suitable flag pole placed upon the building with a new flag flying from the same, which should be put up every morning and taken down at night. We do not know who is responsible, or who should be held responsible for this state of affairs, but who ever it is should be compelled, if necessary, to remedy the condition mentioned above. Lately the Northwestern reporter has noticed a great many violations of the road laws upon the streets of Loup City. Driving on the wrong side of the street, making wrong turns at intersections and running at night without lights or tail lights are the offenses noticed frequently lately. Speeding is also frequently indulged in, especially on some of the side streets. If a proper compliance of the law was enforced in these matters the danger of accidents would be greatly minimized.

New Location We are moving into the room formerly occupied by Lou Schwaner, where we will be pleased to meet all of our customers and friends. We will have a better room and will be able to accommodate our customers. We shall at all times aim to carry a full line of variety goods. Yours for a Square Deal. Bert G. The terms of two of the members of the board of education had expired and an election was held to fill the vacancy. Mrs. A. B. Outhouse and Mrs. J. W. Amick were the retiring members. Mrs. Amick was not a candidate for re-election. There were five candidates for the two places. Following are the candidates and the votes they received: S. N. Sweetland, 25; J. W. Long, 16; J. S. Pedler, 18; Mrs. A. B. Outhouse, 15; Wm. Larsen, 19. Mr. Larsen and Mr. Sweetland were elected. The election was held from 2 till 5 p. m. and a large number who intended voting did not get to do so on account of getting to the polls too late, believing that the election was to be held until six o'clock. Not a great deal of interest was taken in the matter, as is shown by the small vote recorded. S. E. Thrasher, the man who rides the water wagon so gracefully and City Clerk Rowe tried out a new stunt Sunday morning that we will officially O. K. They got out some of the fire hose and sprinkled part of main street. This method lays the dust better and wets down the street more thoroughly than the street sprinkler, besides being quicker and covering the ground even. More experimenting should be done along this line.

SOUR STOMACH. This is a mild form of indigestion. It is usually brought on by eating too rapidly or too much, or of food not suited to your digestive organs. If you will eat slowly, masticate your food thoroughly, eat but little meat and none at all for supper, you will more than likely avoid the sour stomach without taking any medicine whatever. When you have sour stomach take one of Chamberlain's Tablets to aid digestion.

Buy A New Binder Now

I would advise party wanting binders this year or in the next three years, to buy them this year. A seven ft. Deering binder complete will cost you \$175. This same binder in 1918 will cost you \$225 or more which would be 8 per cent interest on \$175 to August 1, 1921. If you buy a binder now and give your note at 8 per cent interest until August 1, 1921, it would be cheaper than buying at that time, while you have the use of the binder for three years in case of a large wheat crop in 1918 it will be impossible to furnish half the demand for binders. Buy your binder this year and save from \$50 to \$60 and be sure to have one for the 1918 crop.
