The Kaiser's Tipperary. The Kaiser wrote a letter to our president one day

Saying: if you want some trouble just come o'er our way

For your great big steamer, we don't give a single rap

And if you cross our boundary, we will blow your off the map.

(Chorus) It's a hard thing to lick the Kaiser It's a hard thing to do

It's a hard thing to lick the Kaiser The Allies know it too

So it's good-bye to little Italy Give France and Russia due

But the only one to lick the Kaiser Will be our Red, White and Blue.

Wilson wrote to Wilhelm and he said, Now Willie dear

Don't get too fresh and send your little U-boat here

Though you may think you're just about the biggest big I am,

Remember it is dangerous to monkey with Uncle Sam.

(Chorus) So our country waited, waited long and then they say

The Kaiser got excited and a game he tried to play

Tried to get the friendly Japs and Mexico to fight,

And then we gave him "his" and started in just right

(Last Chorus) It won't be a hard thing to lick the Kaiser,

'Twon't be a hard thing to do.

It won't be a hard thing to lick the Kaiser with our own red, white and blue.

And we'll show little William, Uncle Sam won't stand his play

And he'll get into a lot of trouble when he strikes at the U. S. A.

MARKETING HOGS.

Beats burying them. Steve Hoover, Mt. Pleasant, Iowa, writes, "Commenced feeding my herd of about 100 hogs B. A. Thomas' Hog Powder over two months ago. Fifty were sick and off feed. Nearby herds had cholera. I did not lose one—they are well and growing fast."—J. J. Slominski.

CAUSE OF SPONDENCY.

Spendency is often caused by indigestion and constipation, and quickly disappears when Chamberlain's Tablets are taken. These tablets strengthen the digestion and move the bowels.

Produce A Thanksgiving Chicken.

There is still time to produce a 4 pound roaster for Thanksgiving, according to poultry husbandry specialists at the University Farm, who are urging increased production of poultry to meet the world's demand for meat. Should every farmer of the State

(there are 130,000 farmers in Nebraska, who produce 90 per cent of the poultry output for Nebraska) set one more hen with 15 eggs, hatch 10 healthy chicks, and raise 8 of them, the aggregate production would be more than a million chickens weighing four million pounds, or nearly one 4-pound chicken for every man, woman, and child in Nebraska.

WORK AND PLAY—BOTH.

With the government need of increased production and the practice of sane economy on every hand, we should not for a moment lose sight of the fact that the human brain and body requires a certain degree of periodical relaxation. We must work—work hard and for long hours—in order that we may each perform the duties allotted to us. But we must have our hours of relaxation or our overburdened frames will suffer and our energies will deteriorate. A wise head is needed to devise some form of community amusement in which all may share—healthful exercises which is more play than work, and which will take the mind from the more serious problems of the day. Have you a plan? Speak up!

WHY ARE WE FIGHTING?

The answer to this question is contained in the government's red, white and blue book, just issued. The text of the book—or paper—has been published in all of the daily papers, and constitutes an unanswerable argument in favor of war to the hilt. Read it—study it—analyze it—and when you have digested its contents you will be thoroughly convinced of the justice and the absolute necessity of the war the United States is waging against Germany.

Detroit, July 4. — Edwin Denby, age 47, probably the most distinguished American to enlist in the ranks at the first call to arms, was promoted to the rank of Corporal in the United States marine corps today. Mr. Denby was a member of congress from 1904 to 1911, former president of the local Board of Commerce, and a prominent attorney of this city.

Corporal Denby, who is undergoing military training at Port Royal, S. C., headed the list in a competitive examination open to all members of his company. His enlistment as a private in the Marine Corps caused considerable comment when he expressed the belief that he could serve his country best as an enlisted man.

CHAMBERLAIN'S COLIC AND DIARRHOEA REMEDY.

Now is the time to buy a bottle of this remedy so as to be prepared in case that any one of your family should have an attack of colic or diarrhoea during the summer months. It is worth a hundred times its cost when needed.

FOR SALE.

FOR SALE: — MY EIGHT ROOM house and six lots. Also six lots in cherry and plum trees. A tract of 4 1/2 acres of land and other tract of 3 1/2 acres all in alfalfa and fenced chicken tight.—Alfred Anderson.

If this war continues long enough a lot of our soft soap patriots will be smothered in their own suds. They won't have the age limit as an excuse.

LENIENCY NO LONGER GRANTED.

Federal Government Will Punish All Offenders.

Lincoln, July 4. — Although government officials have nothing to say, it is indicated that the period of leniency toward alien enemies is passed, and that the federal government hereafter intends to jail offenders as fast as they overstep the lines. Heretofore, officials have contented themselves with cautioning those who have been uttering treasonable statements. In most cases, this caution was sufficient, but in a number it was not. Alien enemies are subject to imprisonment during the war, and also confiscation of their property.

Canning And Drying Bulletins.

"Home Canning by the One-Period Cold-Pack Method" is the title of Farmers' Bulletin No. 839, just issued by the United States Department of Agriculture. This bulletin describes in detail the best canning methods known. Farmers' Bulletin No. 841, "Drying fruits and vegetables in the home," is a companion food-preservation bulletin. These bulletins will be sent free upon application to the Extension Service, University Farm, Lincoln, or to the United States Department of Agriculture, Washington, D. C.

To cut down as far as possible the list of "missing" in the casualty reports that are sure to follow the entrance of our forces into the fighting in Europe, Representative Henry Z. Osborne of California, has prepared a bill instructing the Secretary of War to provide each soldier designated for foreign service with an indestructible medal of identification. The medal is to bear the name, company, and regiment of its possessor, and be carried on the person at all times. Mr. Osborne believes that such a precaution, while it involves but slight experience, may well be the means of relieving untold anxiety among those who remain at home eagerly awaiting news from their loved ones at the front.

NORTH AMERICAN HOTEL COMPANY DISBURSES SEMI-ANNUAL DIVIDEND JULY 1st.

Big Hotel Corporation With General Offices at Omaha Has Many Buildings Under Way Involving Investment of Millions of Dollars.

FINEST CHAIN OF HOTEL PROPERTIES IN COUNTRY.

Stockholders of the North American Hotel Company, the big corporation which is at the present time very actively engaged in establishing a chain of modern hotels throughout the middle west in Iowa, Nebraska, Kansas and adjacent states, are receiving their regular semi-annual dividend at 3 per cent, which was disbursed on July 1st.

The North American Hotel Company has attracted attention far and wide on account of the many fine buildings it is erecting. At the present time the buildings under construction at Kearney, Grand Island and Scottsbluff, Nebraska, and at Hampton, Iowa, are progressing rapidly—and in the offices of the architects plans are being rushed so as to enable the commencement of hotel buildings at Sioux City, Iowa, at Norfolk and Ogalalla, Nebraska, and at several points in Kansas at an early date.

The North American Hotel Company is establishing one of the largest chains of modern, thoroughly up-to-date hotels in the country here in the middle west, which is very much in need of this very thing. Scores of commercial clubs and other organizations and individuals are making the strongest kind of inducements to this

company in an attempt to have North American Hotel Company's buildings and service located in their communities—many offering to subscribe heavily for stock and thus assist in the raising of the capital required in their construction.

The North American Hotel Company, which is incorporated under the Iowa state laws, is financed very largely by Iowa, Nebraska and Kansas investors, and the management of this corporation is in the hands of a group of middle-west business men, who have been very successful in the conduct of large business enterprises.

Published under direction of the Bureau of Publicity of the North American Hotel Company, General Offices, Omaha, Neb.

By the time the producer, the middleman and the retailer get through, about the only thing left for the consumer is the bill.

ARE YOU ONE OF THEM?

There are a great many people who would be very much benefited by taking Chamberlain's Tablets for a weak or disordered stomach. Are you one of them? Mrs. M. R. Searle, Baldwinville, N. Y., relates her experience in the use of these tablets: "I had a bad spell with my stomach about two months ago, and was troubled for two or three weeks with gas and nervous pains in the pit of my stomach. Our druggist advised me to take Chamberlain's Tablets. I took a bottle and the first dose relieved me wonderfully, and I kept on taking them until I was cured." These tablets do not relieve pain, but after the pain has been relieved may prevent its recurrence.

The wise man knows much and says little. The fool just keeps right on spilling the beans.

Let's Give Sherman County the Membership that is Warranted by the Liberal and Progressive Citizenship of the Community

If You Are in Doubt Why the Local Chapters are Necessary

as to whether the Red Cross deserves your support, it is because you don't know that

1. The Red Cross is the only volunteer agency commissioned by the government to care for sick and wounded soldiers in war.
2. Ninety-five cents out of every dollar subscribed is used directly in relief work. The cost of maintaining the organization is only 5 per cent of the receipts.
3. The accounts of the Red Cross are audited by the United States war department.
4. The majority of Red Cross workers give their services gratuitously. Such salaries as are paid are low in comparison with what the same service would earn in other fields.
5. YOUR friend, YOUR brother or YOUR son may soon be in need of the help and care which only the Red Cross can give.
6. Red Cross subscribers are not expected to go to the war front; nor do they assume any financial obligation other than the payment of their subscription.

In addition to financial aid, help is necessary for all over the United States as indicated from the following extract from the letter of Elliot Wadsworth, the acting chairman:

To All Chapters:

Supplemental care of the troops, both on guard duty and in their movement from place to place, should be provided by Chapters as needed. There will be many opportunities to provide medical supplies, comforts and refreshments, all of which will be much appreciated. Many Chapters have greatly helped their local commands by completing their regimental hospital stores providing lumber for tent floors, comfort bags for soldiers and in other ways.
