There kept the islands, and at this mo-which he had mounted in desperation, I think it was this half-confidence of ent we should have one station in and said: when they wanted this little wa- who can make these wretches under- ward made us great friends. He was procupied. But Madison and the rum, and that did not quiet them. I even got up, at night to walk the deck

that was near fifty years ago. If Nolan was thirty then, he must near eighty when he died. He looked sixty when he was forty. But he never seemed to me to change fmir afterward. As Limagine his ife, from what I have seen and heard f it he must have been in every sea, and yet almost never on land. He must have known in a formal way, more officers in our service than any can living knows. He told me once, with a grave smile, that no man in the world lived so methodical a life as he. Tou know the boys sny I am the Iron Mask, and you know how busy he was." He said it did not do for myone to try to read all the time, more than to do guything else all the time; but that he read just five hours a day. Then," he said, "I keep up my notelessks, writing in them at such and such hours from what I have been reading; and I include in them my scrupbooks." These were very curious sleed. He had six or eight, of different subjects. There was one of hisy, one of natural science, one which be called "Odds and Ends," But they were not merely books of extracts from newspapers. They had bits of plants and ribbons, shells tied on, and curved scraps of bone and wood, which he had taught the men to cut for him. and they were beautifully illustrated. He drew admirably. He had some of the funniest drawings there, and some of the most pathetic, that I have ever seen to my life. I wonder who will

notes were his profession, and that had been found already, had worked haven't a screen door in the house, and they took five hours and two hours respectively of each day. "Then," Fernando Po. said he, "every man should have a diversion as well as a profession. My Vaughan; "and tell them that these beds were in the house-a part of the natural history is my diversion." That rascals are to be hanged as soon as furnishings that I married, when I took took two hours a day more. The men we can get rope enough." used to bring him birds and fish, but Nolan explained it in such Portunaturalist I ever met who knew any. Then there was such a gold of delight, telling how you can get rid of them, the deus ex machina of the occasion. house. For 25 years I have fetched of how they get away from you when "Tell them," said Vacghan, well and carried water. There are two as little of that as John Foy, the idiot, | Cape Palmas," did. These nine hours made Nolan's This did not answer so well. Cape merly a bedroom and has no place for regular dally "occupation." The rest Palmas was practically as far from a stove. He hartly seemed to hear me; but he did, almost in a would have settled all the question As we came on deck, Vaughan whisper, say: "Oh, if anybody had

Parethe seem. Our French friends. "For God's love, is there anybody told this story till now, which afterwith me when it was my watch. He explained to me a great deal of my mathematics. He lent me books, and lped me about my reading. He never alluded so directly to his story again; but from one and another officer I have learned, in thirty years, what I am telling. When we parted from him in St. Thomas harbor, at the end of our cruise, I was more sorry than I can tell. I was very glad to meet him again in 1830; and later in life, when I thought I had some influence in Washington, I moved heaven and earth to have him discharged. But it was like getting a ghost out of prison. They pretended there was no such man, and never was such a man. They will say so at the department low! Perhaps they do not know. It will not be the first thing in the servce of which the department appears o know nothing!
