Bankers Realty Investment Company to Build \$80,000 Masonic Temple at Riverton, Wyo., Under Its "Single Contract"

System. iso Starts Work on Another North American Hotel Company Building at Ogallala, Ne-

braska. The Bankers Realty Investment Company has just announced that it is to build complete a fine new three

story Masonic Temple for the Masonic Lodge of Riverton, Wyoming, to cost close to \$80,000.

This is the best evidence of the growing popularity in the west and middle west of this Company's "Single-Contract" system of conducting all of the many parts of a building operation under a single management

Many prominent Masons who have seen the Riverton Masonic building plans say the keen foresightedness displayed by the Bankers Realty In vestment Company's architects in de signing this building, so as to be capable of earning sufficient rental in ome to make it a revenue-returning investment, makes it a model well worth patterning after by any lodge organization which is seeking a home capable of producing sufficient rental income to make their building not only self-sustaining, but productive of profit as well.

The Riverton Masonic Temple plans call for a very handsome semifire proof building of the most modern type ,with an exterior finish of mat brick and terra cotta.

The entire ground floor will be de voted to a fine group of modern bank ing rooms and four store rooms, and the second floor will have twenty-one very fine office suites, the most of which have already been leased to professional men and a number of rogressive firms, of which they are considerable number in that vicinity

The lodge room, which is seventyfive feet by forty feet, is located or the third floor, together with paraphernalia rooms ,cloak rooms, a large and very beautiful banquet room and a modern kitchen in which to pre banquets, luncheons ,etc.

There will be a fine suite of club as for the Masons in the basement barber shop... ther with the announcemen of the Riverton building, the Bank Doan's Kidney Pills, for I found them
