NEWS REVIEW OF THE PAST WEEK

British and French Give Enemy Another Smashing Blow in West Flanders.

CANADIANS STORM HILL 70

Peace Proposals From the Pope Are Coldly Received by the Allies-Hoover Takes Control of American Wheat-Training Camp Men Get Commissions.

By EDWARD W. PICKARD.

Another smushing blow at the Gerthans in Flanders was given last week by the British and French. General Haig first sent his hard-fighting Canadian troops after the defenses of Lens and in an irrestible charge they fliet. This, of course, implies that all quickly captured Hill 70, the eminence that dominates that center of the coal region and the Loos salient and which the allied forces had been aiming at for two years. The men from the Dominion pushed on into Lens itself, but as this is written the Germans are still clinging desperately to the center of the city, though every movement of put into action as rapidly as possible. the troops there is covered by the guns | Some of them are proving very painful of the British. As usual, the Germans to the speculators in foodstuffs, but Pacific against ships from San Franat once began a series of counter-at- they are reassuring for the consumer. tacks on Hill 70, but these were re- Among the first things Mr. Hoover did pulsed in every instance by the Cana- was to form a corporation to take over dians, with severe losses to Prince | the control of the country's grain sup-

The latter occupied Dreigrachten | for the government at interior termiand shoved their positions forward to | nals, and at the request of Mr. Hoover the edge of the flooded area, and then forced the crossing of the Steenbeke and took German positions to an extreme depth of 1,000 yards. The British took the village of Langemarck and occupied much territory there and about St. Julien.

Increasing resistance by the Russians and hard fighting by the Roumanians slowed up somewhat the progress of the Teutonic forces through Moldavia toward southern Russia, but the advance of the enemy continued, nevertheless. Von Mackensen's most important victory of the week was the capture of Panciu, a big railway junction. Unless there should be another collapse, the further east the Germans go, the harder they will find the going.

Fearing that enemies of the new republic would attempt to liberate the "I-czar, the government had Nicholas and his family removed secretly and ## Iftly from Tsarkoe-Selo and sent them to Tobolsk, a Siberian town that isn't even on a rallroad.

Peace Proposals From the Pope. Pope Benedict last week submitted to the warring nations a definite proposal for peace. In all the capitals it was received with the serious consideration due it because of its impressiveness and its distinguished source, but the general trend of opinion among diplomats was that it would result in sothing. Despite the evident sincerity of the popes' plan, the peace he proposes is too much of a "German peace" to suit Great Britain, France and Italy, and it is not conceivable that President Wilson and the United States would accept it as stated. Germany and her allies doubtless would be only too pleased to end the war on the

to have been inspired by Austria. Briefly, his holiness would have all conquered territories restored, including Germany's colonies, and the peaceful settlement of the questions of Ale-Lorraine and Italia Irridenta left the future; he thinks there must be reparation for losses sustained, and continuation of the war by an ecoc struggle thereafter; and for avoidance of future wars he ines President Wilson's plan of initional agreement to reduce armsts, enforce peace and obtain rection of the national aspirations of

It has also been found from past experience that the actual taxes paid in by most counties exceed advance estimates, as more property is added to the tax lists after the returns are made to the state board.

Are Buying No German Books.

Christian A. Sommer, member of the state library commission, says no Ger man books have been bought by the commission since he became a member of the commission. This statement he made as a result of inquiry as to the kind of literature the commission is sending out over the state. The commission has charge of the state traveling library, an institution supported by legislative appropriations. Mr. Sommer was appointed on the commission by Governor Morehead. He succeeded F. L. Haller of Omaha as a member. The other members of the commission are Chancellor Avery, Librarian M. C. Wyer of the university and H. C. Lindsay, state libararian. The commission has 18,000 books subject to circulation among the people of Nebraska. More than one hundred of the books are printed in the German language. Some of these were purchased at the request of Mr. Haller.

Corn Crop a Record Breaker.

Nebraska's corn crop for 1917 will approximate 228,000,000 bushels, exceeding the production of last year by 35,600,000 bushels, according to the government crop report for August 1,

This increase in corn makes up in some degree for the loss of winter wheat. The crop of the latter grain for this year is estimated at 10,900,000 bushels, as compared with 64,000,000

A good increase in total production of oats is also noted in the forecast. This year's production is estimated at 97,300,000; last year's was 70.875,000.

Spring wheat will make a better showing than last year, the forecast being 6,270,000, while the production last year was 3,750,000. Barley shows a slight gain, from 3,620,000 bushels this year to 3,080,000 last year. Rye production is less, the crop of this year, 2,700,000, falling under last year's yield of 3.072.000.

A hig increase is noted in both potatoes and apples, in Nebraska. The August forecast for spuds is 12,500,000 barrels of three bushels is expected while last year the production was 567,000 barrels.

Hay production was about at a standstill, the yield of all kinds this year being 7,130,000 tons and last year

Verdon Citizens File Protest.

A big delegation from Verdon called on Governor Neville to file a protest against the plans of State Engineer Johnson and the county board of Richardson county for laying the state aid road in that county. Governor Neville was in Omaha and the visitors did not get to file their complaint. The present plan of officials is to lay the road from Falls City to Stella. The proposed road runs two miles east of Verdon and residents of that town want it to be recognized by the highway. The Washington highway and Kansas City & Omaha road run through Verdon and residents of that son has been over the territory and the county board changes its plans the state engineer said he would consent.

Are Looking for Irregularities.

Federal District Attorney Allen has been appointed by the United States attorney general to act as "official" in the district of Nebraska in approvdraft exemption by employes in the department of justice. Included in this department are employes of the district attorney's office, marshals, and secret service agents in the state. No employes in these departments in Lincoln are in the draft age.

Recruiting for the Nebraska national guard has again been started. Major Heidt, U. S. A. mustering officer, received notice from headquarters that enlistments for the national guard can now be accepted and that an effort will be made to recruit the guard to maximum war strength. Colonel Hall of the Sixth regiment has announced that another big drive will be made to ployed. County agents and food recruit the Sixth regiment up to war emergency agents will be put to strength. Raise High Priced Wheat on Fertile Canadian Soil

Canada extends to you a hearty invita-tion to settle on her FREE Homestead lands of 160 acres each or secure some of the low priced lands in Manitoba. Saskatchewan and Alberta. This year wheat is higher but Canadian land just as cheap, so the opportunity is more attractive than ever. Canada wants you to help feed the world by tilling some of her fertile soil—land similar to that which during many years has averaged 20 to 45 bushels of wheat to the acre. Think of the money you can make with wheat around \$2 a bushel and land so easy to get. Wonderful yields also of Oats, Barley and Flax. Mixed farming in Western Canada is as profitable an industry as

grain growing.

The Government this year is asking farmers to put increased acreage into grain. There is a great demand for farm labor to replace the many young men who have volunteered for service. The climate is healthful and agreeable, railway facilities excellent, good schools and churches convenient. Write for literature as to reduced railway rates to Supt. of Immigration, Ottawa, Can., or to W. V. BENNETT
