Chauncey L. Christian—CPA

One in every 141 persons in the United States is an accountant—almost one million men and women. But only 17,000 of these Accountants are registered Certified Public Accountants: the examination, in every state of the nation, is one of the stiffest. Chauncey L. Christian is among the very few Negroes who have qualified. He was the first Negro in Kentucky, 22 years ago.

One of the highest categories in the Accounting field is "management control." Dr. Peter Barber, of St. Louis, Missouri, considered the possibility of locating an office in Lincoln for his medical practice while visiting Courtland Bivens, a university student.

Dr. Barber received his pre-medical education at Lincoln University and his medical training at Howard University. He has just recently finished his internship at Homer G. Philipps Hospital in St. Louis. Dr. Barber is married and the father of a small son.

Lincoln is badly in need of a good Negro doctor. I am sure that we all hope he will decide in our favor.

Thoughtless minds are useless scrap. Such "brains" often are scattered in the vehicle wreckage, are never salvage. Mind your machine and it will serve like docile Dobbin.
