

## NAACP Backed In Anti-Stereotype Drive

**MARION ANDERSON  
TO BE HERE**

Marion Anderson, celebrated, contralto, is being presented in concert on Tuesday, April 15, at the University of Nebraska Coliseum, by the Lincoln Newspapers. Proceeds from the program will go to a worthy civic enterprise.

Miss Anderson, who is now making her twelfth consecutive tour of this country under the direction of S. Hurok, stands as the most honored musical artist in America. Critics still rave about the richness and brilliance of her voice.

The Philadelphia INQUIRER stated recently: "More so than ever, the only one who can equal or excel the great contralto is Marion Anderson herself." Other papers acclaim her continued success.

Tickets can be ordered for the concert from the Lincoln Newspapers, Box 1547, Lincoln, 1, Nebraska. A public depot will be open about April 1st.

### SURVEY REPORT DELAYED

The report of the employment status survey of minority groups in Lincoln that was to have been given at the last regular monthly meeting of the Social Action Council was postponed until their next meeting. All the reports had not been completed.

The purpose of the survey is to get a picture of the employment situation existing in Lincoln and its effect upon the minority groups. When completed, the information secured will be used as a basis for the working out of difficulties existing.

Prof. Marion Lowe of the graduate school of social work at the University of Nebraska explained the system of the survey questionnaires and stressed the importance of uniformity of symbols used in recording answers. She helped set up the questionnaire.

A committee to study LB 421, introduced in the State Legislature by Sen. Harry Foster dealing with discrimination in employment, was set up. Members selected were: Charles Washington, chairman, Pat Hamburg and Ted Sorensen.

The committee held a luncheon meeting Thursday at the Wilkins and Robinson Lunch Room. Plans for a later meeting with the introducer of the bill were made.

### Hats Off to Senator Seaton! by Frank W. Hale, Jr.

On Monday, March 10, the legislature passed the anti-subversive organization law unanimously. Senator Seaton introduced the law as a safeguard against possible Ku Klux Klan insurrection. This law requires organizations which require oaths of their members to file with the Secretary of State membership and officer lists and plans affecting legislature or political candidates. In realizing the necessity for such an act, based on the assumption that organizations of hatred, intolerance, violence, and insidious group division, thrive under camouflage, this law is a secure mainstay. In taking account of such outfits that have contaminated and corrupted other parts of our country, we may be happy to know that under this law, the State of Nebraska will be equipped to take immediate and effective action to bring them out into the light of mortification. Hats off to Senator Seaton and the Nebraska legislature.

### Southernaires Coming

HOLLYWOOD (ANP)— Fifty minority-group organizations are ready to support the NAACP's drive to banish stereotypes from the stage, screen, radio and the printed page.

Closely collaborating with the NAACP are the American Jewish committee and the Council for Democracy. Already an organizing committee has been working on the project for the past three months to secure the active support of at least 40,000,000 Americans in the drive against stereotypes and plans have been completed for the NAACP to finance a full-time permanent organizer.

Invitations have been extended to the organizations that participated on the Committee against Lynching, namely the CIO, the AFL, B'nai B'rith, the Federal Council of Churches, the American Jewish Congress, Catholic Interracial Council, American Veterans' committee, Council Against Intolerance, YMCA, YWCA, National Lawyers' Guild, Freedom House and the Progressive Citizens of America.

The initial move will be in radio, where all programs will be monitored with the aim of developing a technique to be applied later to pictures, the stage, and the printed page. The groups also will be concerned about research and program creation, through which the case of minorities can be presented.

"Since people of other nations depend, for the most part, on radio and films for their evaluation of our people and traditions and consequently, our ideals, it is imperative these media provide a truthful reaction of the fundamental democracy of the American people," the group's preamble reads.
