

**Campus News**

by Jeanne  
Malone

We shall direct our attention this week to several items of interest.

**NMA to Discuss Hospital Opportunities for Negro Medics**

Hospital opportunities for Negro medica will be a major topic of discussion at St. Louis on Aug. 19, which has been designated as Hospital Day by Dr. W. A. Young president of the National Medical association.

Dr. Younge, chief of the department of medicine at Homer G. Phillips hospital and Peoples hospital, said round table talks by outstanding hospital administrators will be devoted to providing hospital opportunities for Negro Physicians. A large number of Negro doctors in the south and north are unable to give their patients hospital attention, he said.

**Congress Okays Howard, Freedman Budget**

The budgets of Freedman's hospital and Howard university have been approved by both the House and the Senate. Freedman will get \$2,192,000, a boost of \$409,000 over what the budget asked and more than double its expected funds for the next fiscal year.

Howard will get \$4,106,480, a cut of only \$1,170 from the budget estimated. The amount, however is an increase of \$1,346,430 over the funds expected. A portion of the total amount allotted to Howard will go for planning and construction of new buildings.

**23 Negroes, 17 Whites Receive Fellowships**

Chicago—Twenty-three Negroes and 17 white Southerners, were awarded fellowships averaging two thousand dollars each by the Julius Rosenwald Fund.

The fellowships will support such projects as the writing of poetry and novels, research in fashion design and evaluation of political practices.

**PASSED RESOLUTION**

It is especially gratifying and encouraging to learn of the organizations and persons who are concerning themselves with the problems facing minorities during these post-war years.

The following resolution was passed recently by the National Council of Catholic Women during their Convention.

"One of the major social problems of our country is racial discrimination. It is appalling how blind we can be to this evil. It is undeniable true that intolerance is driving our Negro citizens into the ranks of Communism. We are resolved to support federal and state legislation designed to prohibit discrimination against minority races, especially in the matter of equal employment opportunities."

**Dyes**

The average person that uses dyes do so because their hair has turned gray, or because of an unattractive color. Care should be taken in applying dyes.

First of all, be sure to take a dye test before using dye. There are several types of dye on the market — Compound, Metallic, Aniline, Derivatives and Vegetable. Vegetable dye is most commonly used and has less hazardous results upon the hair.

A prolonged use of dyes can and often is harmful to the hair, especially if it has not been applied skillfully, and if the hair has not been taken care of.

When hair has been dyed black, it will turn red when heat is applied, unless the hair is in good condition, and the dye and dressing of the hair is administered by one who is skilled in such work. Once the hair has been ruined by the improper use of dyes, the best thing to do is to apply hot oil to the hair and allow a new growth before using dye again.
