Teen Age Chatter

BY Dorothy Greene
Greetings Gates:
Well this is my last column of Teen Age Chatter for awhile, now don't start fussing. It won't be the last TAC column by any means. I'm going to let Elois Finley take up where I will leave off. Good luck Lopy.

Seen at the great concert of Roland Hayes Monday night among the many people in the audience, none other than Maxine Stith and John Foster. I'm telling you.

Speaking of the nurses (to be) this week, Freddie Powell came home Wednesday to spend Thanksgiving with her family as did Martha Hammonds go to Omaha and Ada Coffey journeyed to Kansas City.

On Sunday afternoon a couple of teens came down with the Broaden family, Paul Thornton and Fred Broaden. While in the city they made some most interesting phone calls. Didn't they girls?????????

Now that Thanksgiving is here it means that Christmas is only 30 days away. Remember the early bird catches the worm.

HOUSEHOLD HINTS

How to stuff turkey: Salt the inside cavity— $\frac{1}{2}$ teaspoon salt per pound of bird. Don't pack the stuffing. An overstuffed bird makes a soggy dressing, and bird may burst during roasting. If you're not planning to roast bird right away, chill the stuffing before filling the bird.

How to truss: Bind legs and wings closely to body of bird. It will cook more evenly, brown more evenly, look better on the platter, and carve more easily. After stuffing bird, skewer neck skin to back. Fold wings so tips hold neck skin. Close body cavity opening with skewers and cord. Tie legs to tail.

How to roast: Grease skin with melted cooking fat. Place bird breast down in shallow pan. Use flat rack or V rack. Unless bird has generous layers of fat underneath the skin, cover with rectangle of cheesecloth or thin white cloth large enough to cover top and sides. Do not cover pan, do not sear bird, do not add water. When bird is approximately three-fourths done according to timetable, turn it breast up, replacing cloth over bird.

Turkey Timetable.

Dressed weight	Oven temperature	Time
8 to 10 pounds	325°	3 to 3½ hours
10 to 14 pounds	325°	3½ to 4 hours
14 to 18 pounds	300°	4 to 4½ hours

Plan roasting schedule so turkey is out of oven 15 to 25 minutes before serving. Bird absorbs juices and is easier to carve.

Savory Stuffing.
1 cup plus 2 tablespoons margarine or butter
 $\frac{1}{2}$ cup minced onion
2½ teaspoon salt
 $\frac{1}{4}$ cup diced celery
1½ teaspoon poultry seasoning
4½ quarts lightly packed crumbs or cubes from day-old bread (18 cups)
 $\frac{1}{2}$ cup minced parsley (optional)
 $\frac{1}{2}$ teaspoon pepper
Day before: Melt margarine in deep kettle; add onion; simmer until tender. Meanwhile, combine rest of ingredients. Add to onion; heat well without browning, stirring frequently. Cool, then use to stuff crop and body cavity of turkey, weighing about 10 pounds, drawn weight. Truss bird; refrigerate at once until roasting time.

Roast Loin of Pork.
Remove 8 pound pork loin from refrigerator; sprinkle with salt and pepper. Then rub surface with cut clove of garlic, if desired. Arrange loin, ribs down, on rack in open, shallow roasting pan. Add no water; don't flor. Insert meat thermometer so bulb reaches middle of thickest lean part. Roast in 325° F. oven 35 minutes a pound or until meat thermometer reads 185° F. Makes eight servings.
