From now until late fall we will have one good canning recipe to help you in your canning this year. To begin with, here are a few hints for complete success with your canning.

Don't use imperfect foods!  
Don't use cracked or chipped jars!

Don't use closures or caps that were not made for your brand of jars.

Don't re-use closures!  
Don't delay canning after foods are picked!

Don't overpack jars!  
Don't let packed jars stand any length of time before processings!

Don't store canned food in a damp place.

For a good hot covered dish to use on that picnic try this.
