Judge Hastie Confirmed By Senate at Last

WASHINGTON. (PCNS) After six months of stalling and a long continuing series of secret special "conferences," the senate judiciary committee is expected this week to confirm the nomination of William H. Hastie as cuit Court of Appeals.

Meanwhile, last week C.I.O. President Philip Murray bluntly asserted that the failure of the committee to confirm the Hastie nomination to date can be attributed only to the fact that he "is a Negro." Other joined in the national urging speedy action on the long delayed appointment.

Last Thursday the committee grilled Judge Hastie during a five-hour secret executive session, reportedly regarding his alleged membership in communistfront organizations.

The Murray statement, which has been the first known to be officially made to the committee, clearly implying that the former governor has been the goat of discrimination, was contained in telegrams sent to all members of the committee, in which the C.I.O. head urged a "prompt, favorable report" on the nom-

Pointing out that there is only a short time remaining in this session of the Eighty-first Congress for the senate to act, Mr. Murray said that "since 1933 Mr. Hastie has served his government and the American peopleas assistant solicitor in the Department of the Interior, federal district judge in the Virgin Islands, civilian aide to the secretary of war, and governor of the Virgin Islands." Mr. Murray said that Judge Hastie "has shown a considerable ability, integrity and competency in each assignment he has had." And he

WITH A U.S. TASK FORCE IN SOUTH KOREA, (ANP). The famed 24th Infantry regiment, in its combat role with the 25th Infantry Division in South Korea, chalked up the first sizable American ground victory in the Korean North-South clash here Friday, July 21, by driving Communist forces out of the rail-highway city of Yechon.

The victory came after 16 hours of fierce fighting. The attack began Thursday afternoon (July 20) and ended shortly after dawn the next day. Yechon is 60 miles northeast of Taejon and 55 miles north of Taegu. The former town fell to the Reds Friday night (July 21).

Casualties for the U.S. United Nations forces in this victory are said to be light. No informaa judge of the United States Cir- tion on enemy losses was available.

MacARTHUR'S COMMUNIQUE NOT CLEAR

An earlier communique from General MacArthur's headquarters had said one regiment off South Korean capital division had counter-attacked and retaken Yechon from the invaders. It was not clear, however, from this report whether the town had changed back into the hands of the Red forces only to be retaken.

The 24th, a part of the 25th division headquartered at Gifu, Japan, is one of a number of Negro troops in active and supporting roles in the Korean version of the U. S. Civil war-differing in that a Democratic South is pitted against a Communism North.

Back of its role as one of 'the U. S. units siding with the "defending-against-Red - aggression" South Koreans, is the 24th's long and fabulous history of glory which began 81 years ago.

One of four colored regular army units authorized by act of congress on July 28, 1866, it was activated on Nov. 1, 1869, at Fort McKavitt, Tex. It is the only Negro regular army combat unit in the 25th division. There are no Negro combat units of the regular army in the companion 24th Infantry division.

The other three Negro regular army units were the 9th and 10th Cavalries and the 25th Infantry regiment, all of which have been deactivated.

ORIGINAL MEMBERS FOUGHT IN CIVIL WAR

Many of the original members of the famed 24th regiment fought with Union forces during the Civil first taste of glory in the Spanish American war by capturing the strategic San Juan Hill in Santiago, Cuba. It went on to other famed stands in the Philippines and Mexico.

Based for 22 years at Fort Benning, Ga., as demonstration troops for the infantry school, it was sent to the South Pacific in 1942 as the first Negro troops in the Pacific theatre. The third battalion joined the 25th division in October, 1946, and was followed in February, 1947, by the remainder of the regiment.

About four years ago, 75 percent of its officer strength was white. With the deactivation of the 372nd Infantry regiment in Hawaii and the shifting of officer personnel to Gifu, the picture changed. Currently it is estimated that 60 percent of the officer strength is Negro. There has been no integration among the enlisted personnel.
