ZEPHYR VENTILATING AWNINGS

Cool your home up to 12° on hot summer days. Zephyr's patented ventilating feature sets up a forced draft circulation that p-u-l-l-s out the warm air normally trapped along room ceilings. Light and air are softly filtered through overlapping layers of non-conducting wood... heat and glare are reflected.

Custom-made of select durable woods, in a wide variety of colors, trims, and shapes—to match and enhance any style of architecture. Beautiful, permanent Zephyr awnings add to the charm and comfort of any home, at moderate cost. FHA approved.
