THE MIGHTY WORKER Scripture-Mark 4:35-6; 6. Memory Selection-Do not fear, only believe. Mark 5:36. PRESENT DAY APPLICATION

> By Frederick D. Jordan Los Angeles, Calif.

How many of you have known God's power in some testing time in your life? Those who have little faith may never know the blessedness of His power or understand that it is available at all times. The ruler in our lesson had heard about Jesu. teaching and had doubtless seen His miracles, but felt no need for Christ unti- he was in distress. Is that not the way with us? We call frantically on Him when in distress. The ruler came to Jesus reverently, earnestly and believingly, and Jesus' power was made manifest. This is the way we must come to Jesus still and the assurance of the benefit of His great power is ours. There was as much atomic energy in the world one undred years ago as there is today, but then men limited it by their ignorance. Just so man limits himself by his ignorance of God. His power ih all around us waiting to be harnessed into willing service, as is atomic energy. We can appropriate it to our use if we only

Dr. Rose Praises Negro Progress

WASHINGTON-(ANP)-Visible strides made by the Negro community in America during equality of right and of opportunity are attributable primarily to four historical developments of World War II, says Dr. Arnold M. Rose, University of Minnesota sociology professor, in his pamphlet "The Negro in Postwar America." The booklet is fourteenth in the series of Freedom Pamphlets published by the Anti-Defamation League of B'nai B'rith.

Dr. Rose, a specialist in social and probably best known for his association with Gunnar Myrdal in the writing of the monumental "An American Dilemma," emphasizes these factors as having spurred the progress of the Negro:

1. Increased Negro voting, particularly in Southern primaries; 2. Wartime manpower short-

3. The need for "global good

will;" 4. The policies of the federal

government; 5. The organized "protest movements" instituted by Negroes

themselves to further their cause and help develop a sense of group

Sports Tales Bankhead Signs With The Dodgers

BROOKLYN, N. Y.-Dan Bankhead, right-hand pitcher, signed his 1951 contract Saturday with the Brooklyn Dodgers for what was unofficially said to be \$8,500, a hike of \$3,500 over his last year's

Bankhead won 9 and lost 4 for the Dodgers last season. He became especially effective on the mound during the latter part of the season when the Dodgers were making a pinal bid for the National League pennant.

Big Don Newcombe, the Brooklyn Dodgers number 1 moundsman, wasn't predicting anything as he signed his 1951 contract for a reported \$18,000, but told reporters that he felt like he was going to win twenty or more this season.

The big fellow, weighing 248 pounds, but showing little indition of being fat, grinned as he talked about that elusive 20-game mark which has evaded him ever since he broke into the big time.

"I don't want to predict anything," he said, "but if I can start out feeling the way I felt at the time of the All-Star game, I'll sure win 20 or more."

Early season arm trouble solwed up big "Newk" at the beginning of last season, but he hopes to avoid similar trouble this year by taking some pre-season conditioning at Hot Springs with his great battery-mate, Roy Campanella. He feels a couple of weeks at the spa will help him withstand the rigors of uncertain weather at Vero Beach, Fla., where the Brooks will encamp this spring.

Don's greatest day last year was when he pitched that memorable double-header against the the last decade in its struggle for Philly. He went into the game sporting a consecutive inning streak without an earned run, but the Phils broke this streak in the first inning of the second game. He went on to the seventh, and then his mates won the game for a relief pitcher in the late innings of the contest.

Newcombe's over - all record since starting with Nashua of the New England League in 1946 is 88 games won, 37 lost. He has psychology, author of several never won 20 games in one seastudies related to Negro problems son inspite of this excellent record.
