## Dr. DuBois Acquitted Trial as 'Foreign Agent'

WASHINGTON—(ANP)—Judge Matthew F. McGuire of the U.S. district court last week acquitted Dr. W.E.B. DuBois and four other former officers of the Peace Information Center of charges of violating the foreign agents registration act.

The judge granted a motion for acquittal upholding the defense contention that the government had failed to prove, under the law, that the PIC acted as a publicity agent of the Committee of the World Congress of the Defenders of Peace.

The government contended that the center had so acted and should have registered as an agent of a foreign principle.

Chief defense attorney, Vito Marcantonio, former New York congressman, argued that the PIC was acting independently when it circulated the so-called Stockholm peace appeal.

He further argued that the Peace Information Center is now a dead organization, and did not exist at the time of the indictment. Government evidence has shown that the center did not exist beyond the latter part of January, 1951; it had no meetings beyond July 12, 1950. The advisory council did not meet after May 11, 1950. Dr. DuBois was indicted in February, 1951.

Even if the organization were still in existence, the indictment should be dismissed, argued Marcantonio, because the government has failed to establish any connection between the New York center and a foreign principle. The acquittal (Continued on Page 3)

## Pastor Asks End of Jimcrow Travel

NORFOLK, Va. — (ANP) — A white Presbyterian minister told his congregation at the regular morning service here last week that segregation of the races on common carriers in Virginia ought to be eliminated. He warned that the white man's restrictions on Negroes are exploited by the Communists.

The attack on racial segregation was made by the Rev. Royce K. McDonald, pastor of Second Presbyterian Church, during the delivery of his morning message on "Our Strong Deliverer."

Rev. McDonald asserted, "Virginia Christians ought to take the temptation of malice and ill-will out of the path of Negroes by obliterating segregation on common carriers."
