tire highway problem be taken up and not just one section. I realize that this will delay the highway construction program by a month or two, but I am firmly convinced that if the entire highway problem were given consideration and action that 5 or 10 years from now Nebraska would be much better off. We cannot approach this problem from a short-sighted, panicky view."

Forty-First—J. Monroe Bixler, Harrison: "Yes" unqualifiedly, plus: "Without a doubt the inadequate system of financing new roads along with the past methods of taking care of the big pressure group or those who yelled the loudest with political implications, all on a year-to-year basis, is in my opinion, one of the biggest reasons for the road mess we now find our state in. To correct this, or at least get started on the way,

### DELTA SIGMA THETA PROJECT REHABILITATES HANDICAPPED IN SOUTH

—One of the most humane projects conducted by any Greek letter organization in the South is a rehabilitation program sponsored by sorors of 52 chapters of Delta Sigma Theta sorority. A chief center of the Delta work is the Tuskegee Rehabilitation Center in Tuskegee Institute, Ala. where the sorority provides auxiliary services to the Center. Chapters contributing to the program are located in Alabama, Georgia, Florida, Tennessee, Mississippi and South Carolina, comprising the Southern Region.

Mrs. Ruth Ballard of the Tuskegee Center is the co-ordinator of this Delta project. Miss M. Lucia James of the faculty of the School of Library Service of Atlanta university is director of all sorority regional activities.

Above pictures show different examples of what the Deltas are doing at Tuskegee. The scenes are as follows:

Upper left: Bi-lateral amputee from Florida checks a coat for size. Upper right: Activities of this client from Georgia are confined to a wheel chair. Beauty culture is being considered as a vocation. Center: Deformed from birth, this client from Alabama is a likely prospect for a course in alterations.

Lower left: Rehabilitation trainees are sorting clothing sent to the Center by various Delta chapters. Client with crutches is a polio victim from West Virginia. The young lady from Alabama has one artificial limb, and the man in the wheel chair is a bi-lateral amputee from Florida.

Lower right: Suffering from rheumatoid arthritis, this client is studying re-weaving and alterations.—(ANP)

we need new methods of collecting revenue, or expanding the old ones."  
 Forty-Second — Terry Carpenter, Scottsbluff: "Yes" unqualifiedly, plus: "There is urgent need for additional road revenue and this is the only problem that no one has the guts to try to solve to the extent that it will some day have to be solved. If I understand the road problem, the amount of money we need can, only be raised by a sales tax. Why not face it? Why use arguments of a diversionary nature in order to split opinions so that we will

end up with nothing? Let's get the job done!"  
 Forty-Third — A. A. Fenske, Sunol: "Yes" unqualifiedly.  
 All in all, that gives a pretty

good idea of the thinking of those who did not have a chance to vote in the 1951 session on reenactment of the 1949 highway financing legislation repealed by the people in the 1950 election.
