**That's Different.**  
Talking about calling out federal troops to prevent lawlessness, what's the matter with drawing a bead on Secretary of the Treasury Shaw? In turning over the national treasury to the stock gamblers in Wall street he has flagrantly violated the law. No one denies that he has, but suggestions as to a forcible vindication of the "majesty of the law" are altogether lacking.—Houston Post.

**Not for Him.**

Tom Ochiltree relates that while he was a representative from Texas, and returning to his home from Washington, he observed a large crowd at the station. When the train stopped he stepped upon the platform and started to address the crowd. He began: "Gentlemen, I thank you for this welcome home."

"Welcome! Thunder!" interrupted a constituent. "Henry Bacon has just committed suicide in the station."

**A Story With a Moral.**

A Missouri farmer has made a serious mistake in exposing himself to the gibes of a heartless world. He saw an advertisement of a "two-dollar fire escape," and the more he looked at the advertisement the more he wanted the fire escape.

"I can't let a bargain like that a-one git away," he murmured through his tangly whiskers. And then he sat down and mailed the two-dollar bill.

In due time the fire escape arrived. It was an inexpensive copy of the Bible.

**Rubbing it in.**

While the recently organized choir of the Sunday school of the Central Presbyterian church of Brooklyn were rehearsing last Saturday night Dr. Carson asked them if they could suggest a good hymn which they could sing. For a few minutes the singers looked through their books in search of an appropriate one, but were unsuccessful. Finally the silence was broken by some wag saying: "For goodness' sake, Doctor, don't sing 'From Greenland's Icy Mountains,' with coal at \$20 a ton."

**Effects of the Strike.**

See the coal.  
Where has the coal been?  
Has the coal been in the coal bin?  
Is the coal mine mine, or is the coal mine not mine?  
If not mine, where is mine?  
Has the coal been in the mine, and if the coal bin is mine, why can I not mine in the coal mine for my coal bin?  
If the coal in the coal bin was mine, why has not the coal been in the coal bin instead of in the coal mine that is not mine?

nothing else. At the moment of Cleveland's second inauguration President Harrison had already caused plates to be engraved for a bond issue. The prosperity which the country has enjoyed under various republican regimes has been not because, but in spite of republican rule.

While it cannot be said that we are threatened with a panic at the present time, the money stringency which is now on is due to republican misrule. Secretary Shaw, in his offering to anticipate the interest on government obligations maturing between October 1 and the end of the fiscal year, officially recognizes the stringency, and, while he proposes what may, or may not prove an adequate relief, it cannot be said that the administration has observed the rule of the old proverb that prevention is better than cure.

Russell Sage, in a letter published on Friday, puts his finger on one of the causes of the stringency, to-wit, wild cat speculation. This is directly traceable to the administration's encouragement of trusts by not enforcing, or attempting to enforce, the Sherman anti-trust law, except against two out of over two hundred of the trusts which are, and have been, violating it.

The great Pennsylvania coal strike and the other strikes which have taken place in different parts of the country—not a day passes without a strike or a rumor of strike—are evidences of a condition of business and industry very far removed from the boasted republican prosperity.

The discontent, not of the laborers alone, but of all classes, is not sporadic, but is universal. It is not on the wane, but is on the increase and at a rapid rate. The cry of the citizen who is paying the high prices with small earnings and tight money is, "If this be republican prosperity, give us some other kind."—Houston Post.

**OSTRICH LOGIC.**

"When I can't see danger there is no danger." That's the logic of the ostrich which hides its head and exposes its body to the hunter. There are not a few people who seem to have gone to the ostrich to learn logic. The most dangerous enemies of humanity are the enemies which can't be seen, the disease breeding microbes which infect the blood. It is harder to get the microbe out of the blood than to keep it out, but Dr. Pierce's Golden Medical Discovery does both, by purifying the blood and then keeping it pure.

If there are eruptions on the skin, boils, pimples, sores or other signs of impure blood, use Doctor Pierce's Golden Medical Discovery, which will purify the blood and cure the eruptions which come from it.

"My blood was all out of order, and I had to go to the doctor," writes Mrs. James R. Moss, New London, Stanly Co., N.C. "He gave me medicine which helped me for a short time. In the winter of 1895 I got worse than I had ever been. My tonsils were enlarged and my neck swollen all out of shape; my throat was sore and I could not cure it. My husband went for the doctor, but he gave me no encouragement. He helped me a little, but it did not last long. He attended me for twelve months, when I heard of a lady whose condition was like mine, who was taking your medicine and was getting well. So I secured some of the medicine and began taking it. In one week I was able to do my cooking. When I began taking the medicine I could sit up only a few minutes at a time, and I could rest or sleep only a little while at a time. My throat was so sore at times I could not even swallow sweet milk, and my tonsils were full of little eating sores. My left side was swollen out of shape and I could hardly get my breath. The doctor said I would not get well, but three bottles of Dr. Pierce's Golden Medical Discovery, three bottles of his 'Pellets,' three bottles of Dr. Sage's Catarrh Remedy and the use of salt water did the work and cured me."

Dr. Pierce's Pleasant Pellets cure constipation and its consequences.
