

Copper Cures Consumption

New Treatment for Consumption Indorsed by Member of British Tuberculosis Congress—"Antidotum Tuberculose" (The Copper Cure) Marvel of the Medical World—Hope for All, No Matter How Bad Off.

enefits Congressman Dingley's Son and Cures Others of Quick, Galloping and Fast Consumption in Their Own Home—Any One Can Receive FREE Specially Written Books Which Explain Exhaustively the Cure and Prevention of Consumption by "Antidotum Tuberculose"—Let Every Reader of The Commoner Write the Company at Once.

O. K. BUCKHOUT.

Chairman Kalamazoo Tuberculosis Remedy Co. (Ltd.); Member of British Tuberculosis Congress; Member National Association for the Prevention of Consumption.

Consumptives need not worry about their future any more, as the long-looked-for cure for consumption has at last been found, and a cure is now just as sure as in ordinary diseases. To satisfy yourself of this you have only to write the Kalamazoo Tuberculosis Remedy Co. (Ltd.) 640 Main St. Kalamazoo, Mich., of which the chairman is Mr. O. K. Buckhout, a noted member of the British Tuberculosis Congress and also of the National Association for the Prevention of Consumption, composed of world-famous men who have made consumption—its cure and prevention—a life study. This cure is something entirely new, and is called "Antidotum Tuberculose," or the Copper Cure, and is the only discovery we know of that absolutely kills all tuberculosis germs which cause consumption, as, unless this is done, the disease cannot be cured. As the name of the remedy tells, its chief ingredient is copper, which metal has at last been found to be the deadly enemy of the consumption germ. "Antidotum Tuberculose" is the original copper cure.

You can tell if you have consumption by the coughing and hawking, by continually spitting, especially in the morning, when you throw yellow and black matter, by bleeding from the lungs, night sweats, flat chest, fever, weak voice, peculiar flushed complexion, pain in chest, wasting away of the flesh, etc. Find out how the Copper Cure kills the germs, then builds up the lungs, strengthens the heart, puts flesh on the body and muscles on the bones until the consumption is all gone, and you are again a strong, healthy, robust man or woman.

Don't doubt this, for the very same discovery benefited A. H. Dingley, a son of Congressman Dingley, of Dingley tariff fame, who went west and south for relief and didn't get it, and came back with death staring him in the face, and was benefited by "Antidotum Tuberculose" after all else had failed.

So don't give up hope, and don't spend your money in travel. Attend to it right away, for consumption spreads to other members of the family. If you have consumption or fear you are predisposed to it write tonight to the Kalamazoo Tuberculosis Remedy Co. (Ltd.) 640 Main St. Kalamazoo, Mich., and they will send you il-

lustrated and scholarly books free of charge telling you fully how the Copper Cure will cure you in your own home in a very short time.

Paragraphic Punches.

Atlanta Constitution: Mr. Rockefeller's stomach may be out of order, but it doesn't affect his appetite for money.

Milwaukee News: The title of "peacemaker" is about as fitting to Joe Chamberlain as a plug hat is to a Sioux Indian.

Washington Star: "Uncle Tom's postoffice," would be a proper title for a revised modern edition of Mrs. Stowe's famous novel.

Saginaw News: San Miguel, the "last" of the unreconciled Filipino insurgent leaders, has been slain. We wonder how many "lasts" there are.

Cleveland Press: Congressman Littlefield says there are 800 trusts in this country. "Publicity" for all of them will keep the people busy reading.

Toledo Bee: Secretary Root vouches for General Wood's record in Cuba. But who will vouch for Secretary Root's record in the war department?

Johnstown Democrat: Tom Johnson evidently knows when to show visitors the way out doors. It is when he has unmasked them as spies and traitors in his camp.

Houston Post: The people of thirty Balkan villages are reported to be in arms. It is supposed this report is sent out by Turkey to justify another massacre of Christians.

Cleveland Plain Dealer: The beef trust has pushed its case up to the United States supreme court. That's as high as it can go, as the cow remarked when she jumped over the moon.

Star of Hope, Sing Sing Prison: The editor of one of our exchanges says that he would rather do two years in an American prison than one in a British institution of the same kind—and yet some people would have us believe that patriotism is dying.

St. Paul Dispatch: It took the swollen Mississippi and a break in a levee to bring into print the name of Warmoth, so much in evidence in the days of reconstruction and carpet-bagism in Louisiana. The old river's rampage may yet resurrect Pinchback, Eliza Pinkston and other names once notorious, but long since forgotten.

Boston Traveler: Included in the president's staff on his trip are two secretaries, one physician, three stenographers, three messengers, two secret service men, representatives of three press associations, representatives of three illustrated papers, two telegraph operators and one official photographer. There is no danger that publicity will not be forthcoming.

Tobacco's Ill Effects.

Like all elements which have an effect upon the nerves, tobacco differs widely in its action upon different individuals, and no sweeping statements can be made. Upon most constitutions its action is deleterious. It is always injurious before the period of complete development and cannot be used before the age of 25 without harm. Dr. Seaver, director of the physical laboratory at Yale, tabulated the record of the students entering that university during nine years, when all the young men were examined and measured. The smokers averaged 15 months older than the non-smokers. They were also shorter in stature. Nicotine interferes with growth, and its effect in that regard is very measurable.

At Yale during the four years' course

the non-users of tobacco, although taller when they enter, gain 24 per cent more in height and 26.7 per cent more in girth of chest than do the habitual users. Dr. Hitchcock, of Amherst college, found even greater differences. The difference in the lung capacity is very striking in the two classes and has been noticed by all observers. It shows the effect of tobacco on the respiration, nicotine being a potent depresser. As regards the effect of nicotine on the mental processes it is more difficult to interpret the meaning of statistics. Out of the highest scholarship men at Yale only 5 per cent use tobacco, while of the men who do not get appointments 60 per cent use it. It is not necessary to interpret this as meaning that mental decrepitude follows the use of tobacco by young men, for there are other factors to be considered, but it is certainly not conducive to the best work.—World's Work.

Devious.

"I thought your wife's name was Elizabeth?"
 "So it is."
 "Then why do you call her Peggy?"
 "Short for Pegasus."
 "What has that to do with it?"
 "Why, Pegasus is feminine for Pegasus."
 "Well?"
 "Well, Pegasus is an immortal steed."
 "What of that?"
 "Sh! Not so loud. She's in the next room. You see, an immortal steed is an everlasting nag, and there you are."—Indianapolis Journal.

Floored With His Own Weapon.

An obedient husband up in Franklin county, Maine, was objecting to doing certain work about the house, and he quoted Scripture to his wife, showing that the household duties should properly be assigned to the woman. The good wife replied by reading to her astonished liege II. Kings, xxi, 13: "I will wipe out Jerusalem as a man wipeth a dish, wiping it and turning it upside down." That husband has wiped the dishes ever since.—Exchange.

Universal Experience.

Barker—"How could we ever get along without street cars?"
 Parker—"Oh, we could survive. The world waited over eighteen hundred years for street cars."
 Barker—"That's so. And, by jimminy, I've waited quite a lot for them myself."—Kansas City Journal.

Personal Reflection.

"I see the scoundrel in your face," exclaimed the angry man.
 "That," replied the other calmly, "is a personal reflection."
 When the angry man figured this out he was even angrier.—Chicago Post.

\$4.98 BUYS THIS NEW, FINE \$7.00 CASSIMERE SUIT.
