

A new cure for

RHEUMATISM

of which any suffering reader can have

A Box Free

On the theory "that seeing is believing," John A. Smith of Milwaukee wants everyone to try his remedy for the cure of rheumatism, at his expense. For that reason he proposes to distribute 25,000 free boxes among all persons sending him their address. Mr. Smith had suffered all the agony and torture from rheumatism, tried all the remedies known and yet utterly failed to find relief.

At times he was so helpless that he had to take morphine and after considerable doctoring he gave up in despair. He began studying into the causes of rheumatism and after much experimenting, finally hit upon a combination of drugs which completely cured him. The result was so beneficial to his entire system that he called his new found remedy "Gloria Tonic." Those of his friends, relatives and neighbors suffering from rheumatism were next cured and Mr. Smith concluded to offer his remedy to the world. But he found the task a difficult one as nearly everybody had tried a hundred or more remedies and they couldn't be made to believe that there was such a thing as a cure for rheumatism. But an old gentleman from Seguin, Texas, wrote him saying if Mr. Smith would send him a sample he would try it, but as he had suffered forty-one years and wasted a fortune with doctors and advertised remedies, he wouldn't buy anything more, until he knew it was worth something. The sample was sent, he purchased more and the result was astonishing. He was completely cured. This gave Mr. Smith a new idea and ever since that time he has been sending out free sample boxes to all who apply. In Prosser, Neb., it cured a lady of 67 who had suffered 52 years. In Fountain City, Wis., it cured Hon. Jacob Reaux, a gentleman of 70, who had suffered for 33 years. In Perryburg, Ohio, it cured a gentleman 70 years old. In Heron Lake, Minn., it cured Mrs. John Gehr, who had suffered for 30 years. Rev. C. Sand of Harrisville, Wis., tested this remarkable cure on two members of his congregation, one who had suffered 15 and the other 25 years, both were completely cured. In St. Louis, Mo., it cured Mr. F. Faerber of the Concordia Publ. House. In Vandalia, Ill., it cured Mrs. Mary E. Sayles 78 years of age, who was so crippled that she could not dress herself. In Bennington, Vt., it cured an old man whom the best physicians Worms and Frankfurt, Germany, called incurable. This old gentleman had walked for 20 years on crutches, both legs having been lame. He can now walk like a young man. Even prominent physicians had to admit that "Gloria Tonic" is a positive success, among them Dr. Quintaro of the University of Venezuela, to whom it was recommended by the United States Consul. In thousands of other instances the result has been the same. It cured many cases which defied Hospitals, Drugs, Electricity, and Medical Skill, among them persons over 75 years old.

Mr. Smith will send a trial box also his illustrated book on rheumatism, absolutely free of charge to any reader of The Commoner for he is anxious that everybody should profit by his good fortune. It is a remarkable remedy and there is no doubt but that it will cure any case of rheumatism, no matter how severe it may be. Mr. Smith's address in full is:

JOHN A. SMITH,

8907 Germania Bldg., Milwaukee, Wis.

FALLING HAIR BALDNESS ABSOLUTELY CURED

There is but one way to tell the reason of baldness and falling hair, and that is by a microscopic examination of the hair itself. The particular disease with which your scalp is afflicted must be known before it can be intelligently treated. The use of dandruff cures and hair tonics, without knowing the specific cause of your disease, is like taking medicine without knowing what you are trying to cure. Read three full-lengths from your combings to Prof. J. H. Austin, the celebrated bacteriologist, who will send you absolutely free a diagnosis of your case, a booklet on care of the hair and scalp, and a sample box of the remedy which he will prepare specially for you. *Resolves to postage and writes to-day.* PROF. J. H. AUSTIN, 532 1/2 Wacker's Bldg., Chicago, Ill.

CATARH CAN BE CURED. Catarrh is a kindred ailment of consumption, long considered incurable; and yet there is one remedy that will positively cure catarrh in any of its stages. For many years this remedy was used by the late Dr. Stevens, a widely noted authority on all diseases of the throat and lungs. Having tested its wonderful curative powers in thousands of cases, and desiring to relieve human suffering, I will send free of charge to all sufferers from Catarrh, Asthma, Consumption and nervous diseases, this recipe in German, French or English, with full directions for preparing and using. Send by mail by addressing, with stamp, naming this paper, W. A. Noyes, 847 Powers Block, Rochester, N. Y.

ber 10, says: Representative Littauer of New York today renewed his request on President Roosevelt for a reopening of his glove contract case in the department of justice. It is understood to be Mr. Littauer's intention, in the event of his failure to induce the president and attorney general to reopen his case, to appeal to congress for an investigation of the glove contract case. It is intimated that he may exercise his right to discuss the case on the floor of the house.

N. M. Brooks, superintendent of foreign mails, recently made his annual report and it shows that during the past year 10,994,044 pounds of mail were dispatched by sea to foreign countries, of which 7,456,343 pounds was for trans-Atlantic destinations. It is also estimated that the United States received in exchange postage \$2,608,386 more than the net cost to this government. Official statistics of the postal service in the eight leading countries of the world, United States, Germany, Great Britain, France, Italy, Austria, Russia and Japan, shows that the United States leads in the number of postoffices and employes, Germany as to letter boxes, the United States ranking second; Switzerland as to proportion of postoffices to area and the United States as to the number of articles of mail matter received by and sent to each inhabitant, as to length of mail routes and number of pieces of printed matter carried. The United States exceeded by \$7,948,000, the amount expended during the year for the postal service by Germany, which, among all the foreign governments, expended the largest amount.

A Washington dispatch, under date of November 10, says: The caucus of republican senators today authorized Senator Allison, the chairman, to appoint a committee to reorganize the senate committees. A resolution declaring that the committee on inter-oceanic canals should be a majority committee, with a republican as chairman, was not adopted, but the whole matter was left with a committee on committees, with the understanding that such action would be taken. This action would displace Senator Morgan as chairman of the committee.

In a caucus of the democratic members of the house of representatives, which conference was held on November 7, Representative John S. Williams of Mississippi was unanimously selected as the leader of the democratic minority for the coming session. In addition, the following complimentary nominations were made by the caucus: Charles F. Edwards, Texas, for clerk of the house; E. V. Brookshire, Indiana, sergeant-at-arms; A. J. Julian, Georgia, door-keeper; J. E. Jackson, Alabama, postmaster; E. G. Bagby, Virginia, chaplain; I. R. Hill, Ohio, James English, California, F. Knight, Georgia, and Joseph Sinnot, special employes. Except for one of the positions of special employe there were no contests.

On November 10 President Roosevelt sent a special message to congress as follows:

"To the Senate and House of Representatives: I have convened the congress that it may consider the legislation necessary to put into operation the commercial treaty with Cuba, which was ratified by the senate at its last session and subsequently by the Cuban government.

"I deem such legislation demanded, not only by our interest, but by our honor. We cannot with propriety abandon the course upon which we have so wisely embarked. When the acceptance of the Platt amendment was required from Cuba by the action of the congress of the United States, this government thereby definitely committed itself to the policy of treating Cuba as occupying a unique position as regards this country. It was provided that when the island became a free and independent republic she should stand in such close relations with us as in certain respects to come within our system of international policy; and it necessarily follows that she must also to a certain degree become included within the lines of our economic policy. Situated as Cuba is, it would not be possible for this country to permit the strategic abuse of

the plan by any foreign military power. It is for this reason that certain limitations have been imposed upon her financial policy and that naval stations have been conceded by her to the United States. The negotiations as to the details of these naval stations are on the eve of completion. They are so situated as to prevent any idea that there is the intention ever to use them against Cuba, or
