'Grandfather Traded With Us"

One of the greatest joys of this great business is the many kind letters we receive daily from our customers, expressing their pleasure and satisfaction with our goods and methods. Often the most significant part of the letter is embodied in the few words: "My grandfather traded with you years ago." It is the complete confidence of our customers in our honesty, born of past experience in dealing here, that enables us to hold their continued trade.

One-time special "below cost offerings" to catch an occasional customer, and making up the loss on subsequent orders, would never build a business like ours.

It is the constant saving and steady stream of pleasant business relations which makes our patrons eager to speak a good word for us at every opportunity.

Our prices are 15 to 50 per cent below regular retail figures.

Our Big Catalogue contains over 1100 pages and wholesale prices on Groceries, Dry Goods, Crockery, Hardware, Furniture, Harness, Implements, Vehicles, Clothing (all kinds for Men, Women and Children), Millinery, Musical Instruments, Sewing Machines, Bicycles, Sporting Goods—practically everything that anybody could want.

It also contains freight rates, full instructions for ordering, and tells you everything you might want to know about us.

Ordering is easy from this wonderful book, which costs us almost one dollar apiece to print and send out.

Send for it today and save the profit you pay your dealer. You can get your money back if your purchases are not satisfactory. Fill out this slip, enclosing 15 cents for partial postage as a guarantee of good faith.

Mr. Bryan on the Democratic Party

(Continued from Page 3.)

lending class at home and abroad; the prostration of industry and impoverishment of the people.

"We are unalterably opposed to monometallism, which has locked fast the prosperity of an industrial people in the paralysis of hard times. Gold monometallism is a British policy, and its adoption has brought other nations into financial servitude to London. It is not only un-American, but anti-American, and it can be fastened on the United States only by the stifling of that spirit and love of liberty which proclaimed our political independence in 1776 and won it in the war of the revolution.

"We demand the free and unlimited coinage of both silver and gold at the present legal ratio of 16 to 1 without waiting for the aid or consent of any other nation. We demand that the standard silver dollar shall be a full legal tender, equally with gold, for all debts, public and private, and we favor such legislation as will prevent for the future the demonetization of any kind of legal tender money by

private contract. "We are opposed to the policy and practice of surrendering to the holders of the obligations of the United States the option reserved by law to the government of redeeming such obligations in either silver coin or gold

coin. "We are opposed to the issuing of interest-bearing bonds of the United States in time of peace and condemn the trafficking with banking syndicates, which, in exchange for bonds and at an enormous profit to themselves, supply the federal treasury with gold to maintain the policy of gold monometallism.

"Congress alone has the power to coin and issue money, and President Jackson declared that this power could not be delegated to corporations or individuals. We, therefore, deto circulate as money by national to prevent the importation of foreign | federal judges, in concempt of the | Bye Co., Drawer 505 Dept 2, Indianapolis, Ind.

banks as in derogation of the constitution, and we demand that all paper which is made a legal tender for public and private debts, or which is receivable for dues to the United States, shall be issued by the government of the United States and shall be redeemable in coin.

"We hold that tariff duties shall be levied for purposes of revenue, such duties to be so adjusted as to operate equally throughout the country, and not discriminate between class or section, and that taxation should be lim- its rights. ited by the needs of the government, honestly and economically administered. We denounce as disturbing to business the republican threat to restore the McKinley law, which has twice been condemned by the people in national elections, and which, enacted under the false plea of protection to home industry, proved a prolific breeder of trusts and monopolies, enriched the few at the expense of the many, restricted American staples of access to their natural markets.

"Until the money question is settled we are opposed to any agitation for further changes in our tariff laws, except such as is necessary to meet the deficit in revenue caused by the adverse decision of the supreme court on the income tax. But for this decision by the supreme court there would be no deficit in the revenue under the law passed by a democratic congress in strict pursuance of the uniform decisions of that court for nearly 100 years, that court having in that decision sustained constitutional objections to its enactment which had previously been overruled by the ablest judges who have ever sat on that bench. We declare that it is the duty of congress to use all the constitutional power which remains after that decision, or which may come from its reversal by the court as it may hereafter be constituted, so that the burdens of taxation may be equally and impartially laid, to the end that wealth may bear its due proportion of the expense of the government.

"We hold that the most efficient way of protecting American labor is

pauper labor to compete with it in the home market, and that the value of farmers and artisans is greatly reduced by a vicious monetary system which depresses the prices of their products below the cost of production, and thus deprives them of the means of purchasing the products of our home manufactories; and as labor creates the wealth of the country, we demand the passage of such laws as may be necessary to protect it in all

"We are in favor of the arbitration of differences between employes engaged in interstate commerce and their employes, and recommend such legislation as is necessary to carry out this principle.

"The absorption of wealth by the few, the consolidation of our leading railroad systems, and the formation of trusts and pools require a stricter control by the federal government of those arteries of commerce. We demand the enlargement of the power of the interstate commerce commission and such restriction and guarantees in the control of railroads as will protect the people from robbery and oppression.

We denounce the profligate waste of the money wrung from the people by oppressive taxation and the lavish appropriations of recent republican congresses, which have kept taxes high, while the labor that pays them is unemployed and the products of the people's toil are depressed in price till they no longer repay the cost of production. We demand a return to that simplicity and economy which benefits a democratic government and a reduction in the number of useless offices the salaries of which drain the substance of the reople.

"We denounce arbitrary interference by federal authorities in local affairs as a violation of the constitution of the United States and a crime against free institutions, and we especially object to government by injunction as a new and highly dangerous form of oppression by which the

laws of the states and rights of citizens, become at once legislators, the home market to our American judges, executioners; and we approve the bill passed at the last session of the United States senate, and now pending in the house of representatives, relative to contempts in federal courts and providing for trials by jury in certain cases of contempt.

"No discrimination should be indulged in by the government of the United States in favor of any of its debtors. We approve of the refusal of the Fifty-third congress to pass the Pacific Railroad funding bill and denounce the effort of the present republican congress to enact a similar

"Recognizing the just claims of deserving Union soldiers, we heartily indorse the rule of the precent commissioner of pensions, that no names shall be arbitrarily dropped from the pension roll; and the tact of enlistment and service should be deemed conclusive evidence against disease and disability before enlistment.

"We favor the admission of the territories of New Mexico, Arizona, and Oklahoma into the Union as states, and we favor the early admission of all the territories having the necessary population and resources to entitle them to statehood, and, while they remain territories, we hold that the officials appointed to administer the government of any territory, together with the District of Columbia and Alaska, should be bona fide residents of the territory or district in which their duties are to be performed. The democratic party believes in home rule and that all public lands of the United States should be appropriated to the establishment of free homes for American citizens. "We recommend that the territory of Alaska be granted a delegate in congress and that the general land (Continued on Page 13)
