

We Offer \$5,000

As a Guarantee on Liquozone. The First Bottle is Free.

A great deal is said in these days about Liquozone.

Millions are telling of the good it has done; for one home in five—wherever you go—has some one whom Liquozone has cured.

This remarkable product has become the talk of the world. In the past two years, the sick of nine nations have come to employ it.

But so great a good could not be done to humanity without harming the interests of a few.

The consumption of medicine has immensely decreased. The popularity of the few physicians who cling solely to drugs has diminished. And in numberless homes where Liquozone is in daily use, sickness has been almost banished.

These facts have injured some interests. And a few of the injured attack what they blame for the injury. They denounce that which has done the good.

The usual method is to insinuate that Liquozone itself is a medicine; that, despite our claims, it is a compound of acids and drugs.

Such statements are oft repeated; and we can not doubt that some are led to believe them.

Our answer to all is this:

The virtues of Liquozone are derived solely from gas, by a process requiring immense apparatus and from 8 to 14 days' time. The gas is made, in large part, from the best oxygen producers.

Nothing whatever enters into the product, save the gas and the liquid used to absorb it, plus a touch of color.

And, to emphasize this answer, we offer \$5,000 to any one who can disprove it.

In this business, methods which are subject to criticism are most carefully avoided. We permit no misrepresentation; no claims which have not been

fulfilled. Our product is too vital to humanity to be laid open to prejudice.

What we say about Liquozone is true. What we claim it can do has, again and again, been done. And in any disease which we claim that Liquozone will help, we assume the whole risk on a two months' test with every patient who asks it.

Before we bought the rights to Liquozone, it had been tested for years in thousands of the most difficult cases obtainable. We found that diseases which had resisted medicine for years yielded at once to it. Sickness which had been pronounced incurable was cured.

The value of the product was placed beyond possible question, before we staked our fortunes and reputations on it. It was amply proved that, in germ troubles, Liquozone did what medicine could not do.

Then we gave the product away—gave millions of bottles, one to each of millions of sick ones.

We have published no testimonials; no evidence of cures. We have never asked a soul to buy it.

Our method has been to buy the first bottle ourselves; to let the sick try it without the cost of a penny; to let the product itself prove its power.

Most of you know the result. There is no neighborhood—no hamlet so remote—but knows some wonders which Liquozone has wrought.

And Liquozone is probably doing more to cure sickness, and to prevent it, than all drugs, all medicines combined.

How petty is that self-interest which would have you go back to the old methods—to the days before Liquozone! Back to the time when the very cause of disease was unknown, or

when no one knew how to meet it!

What Liquozone Is

The greatest value of Liquozone lies in its germicidal powers. It is a germicide so certain that we publish on every bottle an offer of \$1,000 for a disease germ that it can not kill.

Yet it is absolutely harmless to the human body. Not only harmless, but helpful in the extreme. Even a well person feels its instant benefit.

Liquozone is the only way known to kill germs in the body without killing the tissues, too. Any drug that kills germs is a poison, and it can not be given internally. Medicine is almost helpless in dealing with inside germs.

But germs are vegetables; and Liquozone—the very life of an animal—is deadly to vegetal matter. This fact—above all others—gives Liquozone its value. There is no other way to directly end the cause of any germ disease.

Germ Diseases

These are the known germ diseases. Nearly all forms of all these diseases have been traced to germs, or to the poisons which germs create.

These are the diseases to which medicine does not apply, for drugs can not kill inside germs. All that medicine can do is to act as a tonic, aiding Nature to overcome the germs. But those results are indirect and uncertain. The sick can not afford to rely on them. And no one needs to now.

Liquozone alone can destroy the cause of these troubles. It goes wherever the blood goes, so no germ can escape it. The results are almost inevitable. We have seen them so often in every disease in this list that we have come to rely on them. Liquozone has proved itself so certain that in any stage of any of these diseases, we will gladly send to any patient who asks it an absolute guaranty.

50c Bottle Free.

The way to know Liquozone, if you have never tried it, is to ask for a bottle free. We will then send you an order on a local druggist for a full-size bottle—a 50c bottle—and will pay the druggist ourselves for it. This applies only to the first bottle, of course—to those who have never used it.

The acceptance of this offer places you under no obligations. We simply wish to convince you; to let the product itself show you what it can do. Then you can judge by results as to whether you wish to continue.

This offer itself should convince you that Liquozone does as we claim. We would certainly not buy a bottle, and give it to you, if there was any doubt of results. You want those results; you want to be well and to keep well. Then be fair with yourself; accept our offer today. Let us show you, at our expense, what this wonderful product means to you.

Liquozone costs 50c and \$1.
