

## Let Me Send You Free My Cloth Bound Book on Eye Diseases and Give You Free My Advice on Your Eyes In Order That I Can Prove to You the Wonderful Power of My Dissolvent Treatment to Cure Eye Diseases

I HAVE probably cured more cases of Eye Diseases than any other Eye Specialist in the world.

I have saved more People from going Blind—I have restored sight to more Blind People than any other Physician—Specialist or otherwise.

I have cured patients in every part of the world.

I have not as most specialists do attempted to cure eye diseases with caustics and the knife—two injurious methods which do not affect the cause of the eye trouble.

I have simply removed the Cause of the Eye Diseases—of the partial or complete blindness—with my Dissolvent Treatment.

Let me tell you why my Dissolvent Treatment makes these remarkable cures.

First of all you must know a little about the eye.

Just look at the cut in this advertisement.

It is an illustration of a section of the eye-ball—showing the entrance of the optic nerve and the circulation of the blood in the eye.

The veins are dark—the arteries are light.

Just see how closely these arteries and veins surround the entire eye—see how completely they are networked through the tissue of the eye.

These arteries and veins are the life—vitality and health of the eye.

Just as a city water system carries water to the houses and the sewage system removes the filth—so do the arteries bring nourishment and energy to the tissues—nerves and animal cells of the eye and the veins carry off the waste tissue impurities and deposits in every part of the eye.

And just as it will cause diseases in a city to impede either the water or the sewage system since it allows filth to collect so will it make the eye diseased if anything prevents the arteries or veins from performing their proper functions.

Every disease that affects the eye is caused by an imperfect circulation.

No matter what it is—with the exception of acute diseases (germ produced diseases) every disease that affects the eye is caused either by lack of nourishment due to improper circulation of the arteries—or the formation of impurities and deposits due to the poor removal service of

the veins.

I cure diseases of the eye by restoring the perfect circulation of the veins and arteries with my Dissolvent Treatment.

You can't cure diseases of the eye by applying eye waters—charged to the danger point with such injurious drugs as Cocaine—Nitrate of Silver—Bluestone.

While the effects of these powerful chemicals last the disease may be checked—the pain ceases and you may even see a trifle better.

When the effect of these local applications passes off your eye will be worse than ever, for the cause of the disease will not have been affected—it will be there just as strong as ever.

Then you can't cure eye diseases with the knife.

For the knife is destructive and cannot reach the cause of Eye Diseases without injury to the eye itself—without causing Blindness—sometimes Death.

My Dissolvent Treatment stimulates the circulation—restores the nourishment of the tissues and nerves—and dissolves out the impurities and deposits that have collected because of the defective waste removal services of the affected veins.

When caustics and surgical operations have been tried in vain and eye diseases have been pronounced incurable—my Treatment should be given a trial.

It is almost infallible.

I have cured blindness of many years standing with my Dissolvent Treatment—and in all my professional experience I have not injured the sight of a single eye.

I have cured all of the following named eye diseases and no doubt can cure you.

Cataract	Floating Bodies
Paresis of the	Iritis
Optic Nerve	Opacities of the
Congestion	Cornea
Hemorrhage of the	Eye Strain
Retina	Conjunctivitis
Asthenopia	Pterygium—Web
Amyblopia	Eye
Amaurosis	Granulated Lids
Weak Eyes	Pannus—Scum
Glaucoma	Ulcers
Stenosis	Ophthalmia

If your eyes feel weak—if they water easily—if they feel sore at times—if they ache—if they burn, smart or sting—if you see black specks or long "hairs" floating in air—if an

electric light at night appears to have a halo around it—if objects appear dim and indistinct—if you have pain in the forehead or back of your head—if you feel nauseated or feverish—if you have any of these symptoms you should act at once.

For these are signs of some of the above eye diseases.

These indicate the necessity of the prompt application of my Dissolvent Treatment if you would save your sight.

### How I Cure You With My Dissolvent Treatment.

I give each case careful attention. I carefully consider each case, and then advise my Dissolvent Treatment for that special case.

Then, because my Dissolvent Treatment is absolutely safe—absolutely harmless, my patients apply it themselves at their own homes, under my written instructions, until a cure is made.

I do not lose sight of a single case—it is given close consideration from the time I receive the first letter until the complete cure is made.

### My Cloth Bound Book and Advice At My Expense.

I have cured hundreds of people who have been suffering with painful and serious Eye Diseases who have been partially and completely Blind.

There are still people who are suffering from eye diseases who don't know that my Dissolvent Treatment cures Eye Diseases—restores Sight—by Curing the Cause of the disease—imperfect Circulation.

There are still many who are trying to cure the diseases that affect their eyes with ineffective "eye waters"—who are bravely undergoing the terrible tortures of the knife—who are injuring their eyes—who are ruining their sight.

I want these people to let me send them, at my expense, my book on Eye Diseases—"Eye Diseases Cured without Surgery."

I have written this book myself—it is the result of my twenty-five years successful experience in treating eye diseases—I tell you fully about my Dissolvent Treatment, and I give the proof of what my Dissolvent Treatment has done in my Book.

This book would cost at least \$1.00 at any bookshop, yet I want you to let me send it to you free of charge,

that you may know the truth about my Dissolvent Treatment.

I also want—at my expense again—to diagnose your case and advise you as to treatment.

I want you to let me demonstrate to you, without any charge whatever, what my Dissolvent Treatment will do for your eyes.

I want you to let me give you—at my expense—advice for which any other Eye Specialist would charge you Ten dollars.

Do this in order that you may judge of my Dissolvent Treatment for yourself, so that you can decide whether or not you want to take it up and let me cure your eyes and give you back your sight.

I couldn't go to this enormous expense, if my Dissolvent Treatment did not bear out every claim I make for it.

I couldn't afford to give you my advice and send you my Book, free of charge, if my Dissolvent Treatment were not the most successful treatment in the world.

### Please Read These Instructions Carefully.

In order for me to give you my advice I will send you, when you write me for my Book and my advice, free of charge—a consultation blank, together with an already addressed envelope.

You will then fill this Consultation blank in, enclose it in the already addressed envelope, and return it to me.

I will then send you my advice as to the treatment of your eyes, free of charge. For I will then have the necessary information to thoroughly consider your condition.

Please remember you are under no obligation to me—you are at no expense at any time until you start treatment.

You do not start treatment until after you have received my Book and advice free.

And it is for you to say if you want to take my Dissolvent Treatment—you are the judge.

Send me a postal today. Just write on it—"Dr. Oren Oneal—send me your Book on Eye Diseases and also a consultation blank so that I can fill in the symptoms of my eye disease, return to you and receive your advice as to my eyes free of charge." Then sign your name and address, and please write plainly. Write me this postal now for your Sight's Sake. Remember every day you delay may make your Disease worse—may make it harder to cure.
