of some kind are the heritage of nearly every one. From the infant and the colic, the middle aged and the distressing, miserable headaches, to the aged with nervous, muscular and rheumatic pains.

A remedy to relieve in all cases must be founded on the right principle, and that accounts for the wonderful success of

Dr. Miles' Anti-Pain Pills

They never fail to cure all cases of pain, because they treat the Pain Source—the nerves. By soothing the irritated nerves they lessen the tension, build up the strength, set the blood coursing through the veins, and thus allay all pain.

"Periodic headache, that unfitted me for business several days at a time, has been my life experience. I found first relief in Dr. Miles' Anti-Pain Pills and since then I invariably ward them off by taking a pill when I feel them coming on."

stock exchange as there was today. Heavy selling, almost regardless of the prices offered, began with the opening of the market and from that time till near the close the tone generally was weak. There were rallies from time to time when the bears bought stocks to cover the sales they had made at higher prices or when some strong financial interests sent in buying orders to protect shares in which they were interested, but each rally except the last one just before 3 o'clock, was followed by a resumption of the selling movement. The day's trading was extremely heavy, rising to the total of 2,445,000 shares. Nearly 700,000 shares of stocks changed hands in the first hour of trading."

In the senate, May 3, Senator Tillman criticised a number of the federal judges. He said that he could not accept the idea that there was anything holy about a judge "and when we see how the highest judges differ or change their minds possibly because somethings gets the matter with their stomachs or they sleep badly, we can not be blamed if we conclude that they are not infallible." Mr. Tillman next referred to a pleasure trip to Tampico given by three Kansas railroads to Federal Judges McPherson, Phillips and Pollock. The account was condensed from the Kansas City papers and showed that the judges had been transported in a special car and were accompanied by the general solicitors of the railroads giving the excursion. Mr. Tillman said that Judge Phillips had been especially commended by the president in connection with the Paul Morton case and he contrasted the president's course in this case with his course in criticising Judge Humphrey in the beef packers' case. He would have judges keep themselves above suspicion like Caesar would have had his wife. He would have them in such position that they would not be subject to the reflections of any "dirty newspaper reporter." The South Carolina senator also called attention to a railroad case at Sherman, Tex., in which he declared Circuit Judge McCormick had declined for six years to allow an unprejudiced judge to sit. He said that

the matter had been brought to the attention of congress by petition and he declared that with such a judge sitting in a given case the complainants would have "to whistle for relief." He would stop judicial tyrants from denying justice.

A newspaper dispatch from Buffalo, New York, follows: Daniel Newton Lockwood, state commissioner in lunacy, who nominated Grover Cleveland to every public office to which he has been elected, suffered the amputation of his left leg. The operation was performed by Dr. Roswell Park, and notwithstanding Mr. Lockwood's sixty-two years, he is doing finely. The commissioner's son, Thomas B. Lockwood, said that the operation was made necessary as the result of gangrene in the foot. "My father," he said, "has been greatly troubled of late from that source, and the disorder had begun to extend so that in the opinion of Dr. Park it was deemed best to amputate the limb. The operation is successful, and no doubt my father will speedily recover. Mr. Lockwood is a lawyer with large corporation interests in Buffalo. Although a democrat he was appointed to his present place by Gov. Odell, after his excellent showing as president of the New York commission to the Pan-American exposition, when he turned back to the state treasury \$125,000 saved out of the appropriation. He was once district attorney of Erie county, went to congress in 1877, serving three terms, and was appointed by Mr. Cleveland United States attorney for the northern district of New York."
