Do You Enjoy Your Meals?

One of the Most Important Questions to Consider in the Search for Happiness and Health

The burning question, to you, is, "Are you getting out of life all the pleasure and the health you are entitled to?" If not, why not?

No matter whether every organ and member of your body is in a sound state of health and strength, if your stomach is in any way disordered, you are not going to be "yourself." You are going to be a worried, out-of-sorts, nervous or sullen individual, whose actions will reflect your condition inside, and people will naturally avoid you.

The world wants to smile and be cheerful, and unless you are cheerful and smile, at least, occasionally, you will have few friends, fewer opportunities, no success, and you will go down in defeat—defeated by dyspepsia and a bad stomach.

A good and thorough digestion has a quick, wonderful reaction upon the brain. You must have noticed it many times, for the brain and stomach are as intimately connected as a needle and its thread, one can hardly be used to advantage without the other. If your stomach is slow and lazy in digesting your food, it will produce at once a slow, lazy and cloudy influence upon your brain. Mark it! If your stomach has absolutely quit work, and fermentation is poisoning your vitals as a result, surely your brain is going to be sluggish and correspondingly depressed. No one need tell you that.

But why continue to suffer all the miseries and torments that a disordered stomach brings you?

If your stomach can not digest your food, what will? Where's the relief? Where's the cure?

Stuart's Dyspepsia Tablets are the relief and the cure. Why? Because, as all stomach troubles arise from indigestion and because one ingredient of Stuart's Dyspepsia Tablets is able to thoroughly and completely digest 3,000 grains of any kind of food, doesn't it stand to reason that these little Dyspepsia Tablets are going to digest all the food and whatever food you put into your stomach? Science nowadays can digest food without having to use the stomach for it. And Stuart's Dyspepsia Tablets are the result of this scientific discovery. They digest and digest thoroughly and well, anything and everything you eat.

So, if your stomach refuses to work or can't work, and you suffer from eructations, bloat, brash, fermentation, biliousness, sour stomach, heartburn, irritation, indigestion, or dyspepsia of whatever form, just take one or two of Stuart's Dyspepsia Tablets, and see the difference. It doesn't cost you much to prove it. Then you can eat all you want, what you want, whenever you want, if you use these tablets, and you can look the whole world in the face with a beaming eye and you will have a cheerful spirit, a pleasant face, a vigorous body and a clear mind and memory and everything will look and taste delicious to you. That's life.

enable the banks to get control of the bonds so that the government can invest the 80 per cent of the guaranty fund in two per cent bonds and regain control.

In buying these bonds the banks holding them shall be paid their original purchase price, provided the bonds were bought before January 1, 1908, and providing their exact purchase price can be proved.

It is Mr. Fowler's idea, as embodied in the bill, to have the new credit notes printed on a green background, in differentiation from the yellow background of the gold notes and white background of the silver certificates.

Mr. Fowler, chairman of the committee on banking and currency, today made the following statement regarding the financial situation:

"We are today with regard to our financial and currency practices where we were in 1896 with regard to the standard of values, and to decide now to make all kinds of bonds the basis of currency would be just as serious and fatal a mistake as to have adopted silver then as our standard of value.

"The time is ripe, the circumstances are auspicious and a careful investigation of all the facts and conditions justifies the conclusion that congress can and should so legislate as to bring about these results:

"First—A uniform banking system.

"Second—Uniform bank reserves consisting of gold issue or its equivalent.

"Third—A simple and scientific monetary system consisting of only three forms of currency—gold for our bank reserves, bank credit notes redeemable in gold for the larger bills, and silver for the smaller bills and subsidiary coins.

"Fourth—A currency automatically adjusting itself to the demands of trade, never too great, never too small, but always just adequate to our requirements.

"Fifth—Equal and absolute protection to all depositors in national banks by placing in the United States treasury a guaranty fund which by January, 1909, ought to approximate \$500,000,000.

"Sixth—The establishment of certain rules and regulations whereby the financial operations of the treasury shall be so conducted that the government will cease to be a disturbing factor in our trade and commerce."

THE CAUSE OF THE SMASHUP

The old darkey was suing the railroad company for damages. The man contended that not being warned by whistle or engine bell he had started to drive his rig across the company's track when a shunted box car of said company crashed into his outfit, causing the death of the horse, loss of the wagon and minor injuries to himself. After the prosecution had closed its side of the case, the company's lawyer called the old darkey to the stand and went at him.

"Mr. Lamson," he began, "your rig was struck by the box car in full daylight, was it not?"

"I fink dar was some clouds overhead, suh," answered the caviling witness.

"Never mind the clouds! And only a few days before this accident the railroad company had put a new sign at that crossing?"

"Dar was a sign dar, ya-as, suh?"

"And didn't that sign say 'Stop! Look! Listen!'"

"Now dar am de whol' accusation ub de trouble!" declared the darkey, with animation. "If dat Stop sign hadn't caught dis chile's eye jes' 's ah war squar' on dat track, dar wouldn't 'a been no smashup!"—The Bohemian.

Tools of Accuracy

Tools for the workshop, farm or home must be tools of accuracy. A Plane, for instance, to smooth a board properly must have a keen blade, carefully adjusted—its surface must be true and it must fit the hand.

KEEN KUTTER Tools and Cutlery

are tools of accuracy. Every ounce of weight, every line, every handle, every blade is carefully adjusted, balanced and tested before leaving the factory. The trademark on each guarantees it to be satisfactory or money refunded.

The name Keen Kutter includes Carpenters' Tools, Farm and Garden Tools, Scissors and Shears, Pocket-knives and Table Cutlery.

A Home in the Southwest

Time was—
When "the South" typified the land of happy homes for the favored few of great wealth only—

Today—
"The South" is still the land of happy homes—but they are homes within the reach of every man or woman who has felt the call of the magic charm of the South.

In Missouri, Arkansas, Louisiana and Texas there is land to be had so cheap that paying is not a burden.

Land so rich in productiveness that profits are always sure.

So easy of cultivation that the superintending of a farm in the South country has proven a keen delight as well as a source of great revenue to many an energetic woman.

Sunshine and Outdoor Life

twelve months every year, with no shut-in, snowbound season, when all life is at a standstill.

Better health and greater home comforts are awaiting every man or woman who will go and see this wonderful Southwest.
