

HOW PAPER TARIFF WORKS

From a speech by Representative Hitchcock, editor of the Omaha World-Herald in the house: When this tariff was first laid the paper mills of the United States were inde-

How to Stop Pimples

In Five Days You Can Get Rid of All Skin Eruptions by the New Calcium Sulphide Wafers

Trial Package to Prove It Sent Free

Any man or woman gets awfully tired going around with a pimply face day after day. And other people get awfully tired, too, seeing them go around with faces full of disgusting pimples.

If you are one of the unfortunates who can't get away from your pimples, and you have tried almost everything under heaven to get rid of them, take a few of Stuart's Calcium Wafers every day. Do that steadily for a few days, and in less than a week look at yourself in the mirror.

You will then say that Stuart's Calcium Wafers are a wonder in getting rid of skin eruptions.

These wonderful little workers contain the most effective blood purifier ever discovered, calcium sulphide.

No matter what your trouble is, whether pimples, blotches, blackheads, rash, tetter, eczema, or scabby crusts, you can solemnly depend upon Stuart's Calcium Wafers as never-failing.

Stuart's Calcium Wafers have cured boils in three days and the worst cases of skin diseases in a week. Every particle of impurity is driven out of your system completely, never to return, and it is done without deranging your system in the slightest.

Most treatments for the blood and for skin eruptions are miserably slow in their results, and besides, many of them are poisonous. Stuart's Calcium Wafers contain no poison or drug of any kind; they are absolutely harmless, and yet do work which can not fail to surprise you.

Don't go around with a humiliating disgusting mass of pimples and blackheads on your face. A face covered over with these disgusting things makes people turn away from you, and breeds failure in your life work. Stop it. Read what an Iowa man said when he woke up one morning and found he had a new face:

"By George, I never saw anything like it. There I've been for three years trying to get rid of pimples and blackheads, and guess I used everything under the sun. I used your Calcium Wafers for just seven days. This morning every blessed pimple is gone and I can't find a blackhead. I could write you a volume of thanks. I am so grateful to you."

Just send us your name and address in full, today, and we will send you a trial package of Stuart's Calcium Wafers, free to test. After you have tried the sample and been convinced that all we say is true, you will go to your nearest druggist and get a 50c box and be cured of your facial trouble. They are in tablet form, and no trouble whatever to take. You go about your work as usual, and there you are—cured and happy.

Send us your name and address today and we will at once send you by mail a sample package free. Address F. A. Stuart Co., 175 Stuart Bldg., Marshall, Mich.

pendent of each other, were in competition with each other, and every newspaper man of any considerable importance received periodic visits from agents of various mills, tendering him paper on sample and quoting him prices delivered at his place. When I went into the newspaper business in 1885 such was still the case, and for many years one agent after another visited my office and received my orders. I placed my orders with various mills at various prices, and during many years the tendency of the price, by competition, new machinery and cheaper cost, was gradually downward, until finally the great International Paper company of the east was formed. When that occurred the great company practically took possession of all this eastern country. And after it had held possession of this eastern country for some time there became apparent a gradual working agreement between the International of the east and the Wisconsin mills of the west, and they gradually divided up the country, until in a short time the International Paper company never sent its agents into the western states beyond a certain line, and the western mills never sent their agents into the eastern states beyond a certain line.

Some time after that the national combination was made more complete by the organization in the west of the great General Paper Company of Wisconsin, which bound together into one immense selling agency, all the western mills, and made them for practical purposes, as much of a trust in their territory as the International Paper company was in the eastern territory. About two years ago, however, the General Paper company was broken up by prosecution by the federal government. At once the price of paper in the west began to fall, and for a year or more western papers were able to buy paper at less than \$2 a hundred pounds. Gradually, however, and secretly, because publicity was dangerous, the western mills have come into an operating agreement, not only between themselves, but with the International Paper company, until it came to pass during the year 1907 that the sudden clamp was put upon the newspaper interests of this country, and, arbitrarily, almost in the twinkling of an eye, the price of paper was raised 25 per cent. And today I am paying for paper at the city of Omaha exactly 25 per cent more than I had paid last year. That is an enormous increase. On my paper alone it amounts to \$16,000 per year. That is the case not only with my newspaper, but it is the case with thousands of newspapers throughout the United States, north and south, east and west.

And now the gentleman asks me how the tariff has anything to do with this. I will tell him. If it were not for the tariff of thirty cents a hundred we would have foreign competition to hold the price down. I would be able to buy Canadian paper, which sells today in Canada at less than \$2 per hundred pounds. The quotation on Canadian paper in Omaha is just a little more than the price quoted by the paper trust in Omaha, just sufficient to keep me from buying the Canadian paper. Take off the tariff of thirty cents a hundred on imported paper and the American trust would be forced to lower its price at least thirty cents a hundred, or \$6 a ton, and I use over 1,500 tons a year. How great the enormous robbery is in the aggregate, Mr. Chairman, I am unable to say, but I know, personally, it is costing me at least \$9,000 a year in my business.

Bargains in Fruit Trees, Vines and Plants

Special low prices on Apple, Peach, Plum and Dwarf Pear Trees, Roses, also Asparagus Roots, Currant Bushes and other small fruits. Order trees direct from our nursery and save agent's profits and half your money.

Everything you want for Orchard, Garden, Lawn or Park. Send to-day for Green's Dollar Book on Fruit Growing, also for our Fruit Catalog, and a copy of Green's Fruit Magazine, all a gift to you.

IDAHO
CAREY ACT LANDS

70,000 Acres of choice fruit and farm land still open for entry under THE TWIN FALLS NORTH SIDE CANAL.

THE TWIN FALLS CANAL SYSTEM is the largest irrigation project in the United States, embracing a total of 420,000 acres; 240,000 acres under cultivation; 110,000 acres filed on during 1907, and 70,000 acres under the North Side Canal still open for entry.

LAND INVESTMENTS ARE THE SAFEST BANK ON EARTH.

These lands are located in the famed Snake River Valley in Southern Idaho, in the midst of its noted FRUIT BELT.

CLIMATE, pure, rarified and dry; winters mild, short and little snow; abundant sunshine the year around.

SOIL is a rich volcanic ash and sandy loam, with a warm south slope and the most productive and fruitful upon which the sunlight falls.

TOWNS on the North Side are Milner, Jerome and Wendell, each of which offers inducements for the home-builder, investor and business man.

ELECTRIC POWER—A magnificent power plant costing over \$100,000 is now in operation at Shoshone Falls. More than 100,000 horse power is available in Snake river adjoining this tract.

WATER RIGHT is from Snake River, the seventh largest river in the United States.

FREE TEAMS are furnished by the company from either the Milner or Jerome office to show homeseekers the lands. Drivers who are familiar with the lands accompany every team.

TERMS—Perpetual water right, \$35 per acre, and the land 50c per acre; first payment on water right and land at time of filing, \$3.25 per acre; balance in ten annual payments. Short residence only required.

HOMES—If you want a home, a business, an irrigated farm, a sure investment, sunshine and health; if you want to make money, come to the Twin Falls North Side Lands where you will find rich soil, fine climate, abundance of water, good wells, electric power, electric railroads under construction, good neighbors and everything to make a happy and prosperous commonwealth.
