#### When Taken Together With The Commoner

The publishers of the papers enu-merated below, realizing that all democratic and independent voters should read reliable democratic literature, and feeling that a wider circulation of The Commoner in their respective communities will help the cause of good government, are making sufficient financial sacrifice to enable them to agree to ac-cept subscriptions for their own paper, and also include a year's subscription to The Commoner, at the prices shown below. This makes a happy combination and will en-able democratic workers in the several communities to assist in promoting the democratic campaign of education. We urge upon demo-cratic workers the importance of co-operating with these publishers.

On this question, as on all other questions, Mr. Bryan is everlastingly

right.

G. S. Barnes, Los Angeles, Cal.-On account of selfishness in human nature. The man with a flock of sheep stands in with the man with a lemon grove; each submit to paying a tax or excessive price for the other's product. That they both may rob the man who has neither sheep or lemon grove. And this is only an illustration-it may be passed down the-line on all articles protected. Whenever all men will look at these things through unselfish eyes, viz., the greatest good to the greatest number regardless of their own selfish interests we shall get what is best for the whole people. But first each must learn to be unselfish and look to the good of the greatest number. I never voted for but one democrat for president, and voted for him three times and hope for another opportunity.

J. L. Bird, San Antonio, Texas.-The people do not rule; so therefore it is superfluous to argue the question, "why don't they get what they want?" #### An Announcement of Extraordinary Interest to Every Party Worker

Do you want party success in the nation—in your district—this fall? Are you willing to do your part in bringing about this result? Do you realize that victory is in sight if the workers of the rank and file go in to win?

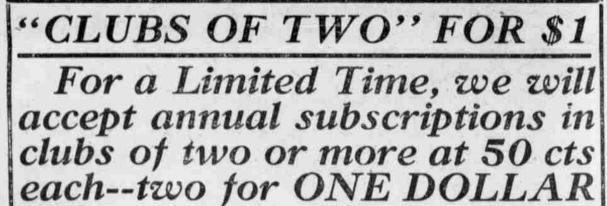

The prospects of a great democratic victory in the coming fall campaign were never better. But "prospects" don't win victories. You can count on the opposition always being busy, but if you don't get out and work, the promise of a sure victory may be turned into disastrous defeat.

The democratic party is in a position to win this fall, but this can be accomplished only by aggressive work and action all along the line. The influence of the opposition must be counteracted by placing in the hands of every voter the facts and arguments of our cause. We must secure the widest possible hearing among the people before we can hope to win be-fore the court of public opinion.

#### You Can Win Victory in Your Own Community This Fall

by earnest effort and wise campaigning. You must keep the rank and file in line and win over as many doubtful voters as possible. The best way to set and keep the voters interested is by placing good democratic literature in their hands and keep it constantly before them during the year. This can best be done through tried and true democratic papers. Those who have had experience know of the value of The Commoner as a vote winner and party builder in their own home communities. Party

workers know the splendid results secured in their local fights by placing The Commoner in the hands of doubtful voters, the recent converts, and the old adherents of the cause.

ves of all parties could be maralled under one banner, and thereinduced to vote for their real inerest, then the people would rule, nd no mistake, and the leader that an accomplish this will be hailed s a Jefferson or Lincoln; but I fear will have to be done through a ew party, as the "interests" seem b have a "strangle hold" on both ld parties, the people's will is hwarted in almost every instance, nd they need but little more exerience and education to cause them o leave the power in both old arties, that controls their policies, vithout a following. The laboring and producing masses must get together before they can even hope to ule, and thereby get what they want. I. H. Whitlock, Plains, Kansas.don't think they do, judging from the high cost of living, for no person would force upon himself knowingly and willingly conditions that would compel him to pay double for the necessaries of life. Some men vote to hold the job they have got, and others vote to get the job they have been promised, and they do this with a promise also from the agents of the special interests that the cost of living will be reduced, in which case the specials have failed to keep their promise. In fact they never intended to. A few more years of Rooseveltism and Taftism and Cannonism, and the present tariff law, and the United States government will be ready for the junk pile. What we need at the head of the government is men like W. J. Bryan and Henry T. Rainey and Champ Clark; then the people would rule.

The Commoner is interested in the success of the democratic party in every section of the United States. We want a decisive victory in every state and congressional district possible, and we are willing to do our part to help secure it.

For this purpose we are making, FOR A LIMITED TIME, the lowest special campaign rate we have ever made—we will accept new annual sub-scriptions IN CLUBS OF TWO OR MORE at 50 cents each (two for \$1.00.) This special price will enable party workers to place The Commoner into

the hands of almost every voter in each precinct. We believe this offer should cause every worker interested : party success in his own com-munity to take up and push the work of sending in as many clubs as possible while this offer remains open.

#### Send at Least One "Club of Two"

This offer gives everyone an opportunity to do some work in this cam-paign. Everyone has some influence, and friends they can appeal to in getting up a club. There are numbers in your precinct who will accept this offer if some worker will only call their attention to it. Will you do your part individually, without waiting for someone else, and send in at least one club?

The only conditions attached to this offer is that there must be one new subscriber in each club of two. While the purpose of this offer is to secure as many new subscribers as possible, we will allow one renewal subscription with one new subscriber in each club of two at ONE DOLLAR. Any present subscriber may, by accepting this offer, have his Commoner date of expiration advanced one year, and either secure one new sub-scriber, or send The Commoner one year to any address desired. Let us hear from the rank and file in every precinct in the United States. Form as many clubs as possible while this offer is in effect. Sample copies

will be mailed promptly on request.
