

### Greatest Of All Berries

ONE PLANT FROM PHOTO JULY 1910

This is the Greatest Berry the world has ever known, discovered in the Himalaya Mountains. Its growth and productivity is simply marvelous. It is perfectly hardy everywhere and grows from 30 to 50 feet in a season and can be trained on arbors or trellises of any kind. The engraving shows one plant from photo July 1, 1910, which is trained to a large trellis loaded with fruit, and continued bearing until October. The fruit is black, almost coreless and the large insular berries borne in enormous clusters will literally melt in your mouth. It is unsurpassed for eating fresh, cooked, canned or preserved in any form and is the Greatest of all Berries for all climates. Everybody can and will grow this Great Berry for it is the easiest fruit in the world to grow, is splendid for city people or any one with limited space, for it can be trained up from the ground like a tree producing berries from 3 to 4 months, growing larger and producing more fruit each year. We guarantee this the Greatest of all new Fruits and can produce facts no one can get away from. Beware of imitations. Giant Himalaya is a family by itself and highly valued wherever grown. The English Himalaya or Plants raised from seeds cannot be relied upon for fruit or hardiness. Our plants are from tested parent stock. Complete satisfaction guaranteed. Instructions for cultivation with a booklet of receipts for using in many ways free with all orders. Strain plants 10c each, 3 for 25c, 6 for \$1.00, 15 for \$2.00, 25 for \$3.00, postpaid. Our 1911 Catalogue of Vegetable and Flower Seeds, Plants and Rare New Fruits free with every order. MILLS SEED HOUSE, Box 45, ROSE HILL, N. Y.

Here is an interesting Chicago story carried by the Associated Press: "Even a thief is not safe in Chicago, is the plea Charles Willard made to the police when he confessed he held up Rector's restaurant last Sunday morning and secured \$3,300. Willard's joy in his possessions was short-lived, he said, for as

he was leaving the cafe door he was greeted by three men who, with a revolver pressed against his side escorted him to an alley and robbed him of the proceeds of the holdup. Willard, according to his confession was one of three conspirators who planned and executed the Rector holdup. He in turn was the victim of a conspiracy devised by a friend to whom he confided the plan for robbing the safe. The story, incredible as it first seemed to the police, was corroborated by them, \$500 recovered and William Loftus, a saloonkeeper, was rearrested and charged with being an accessory to the robbery and with having received stolen property. Willard, after his arrest, asserted he in turn had been 'held up' a few minutes after leaving the restaurant. The police refused to believe him, but later developments proved he told the truth. Loftus is a saloon keeper in
