Cure Your Rheumatism

50,000 Boxes Free

JOHN A. SMITH.

Rheumatism, Lumbago, Sciatica, Pain in the back have been cured, in the real meaning of the word, by a little Stillingia, Iodide of Potassium, Poke Root, Gualac Resin and Sarsaparilla. Any person can take these remedies in any reasonable amount with perfect safety, and the results have been found to be astonishing. It has been proven that this combination makes up the best rheumatism remedy in existence, having actually cured many stubborn cases of over 30 and 40 years' standing—even in persons of old age.

The five ingredients mentioned above prepared with great accuracy and skill not only in regard to proportion, but also in selecting the best material, have been put up in compressed tablet form, and are called

"GLORIA TONIC," and fifty thousand boxes are offered free to introduce it.

If you suffer from any form of uric acid in the blood, and have Rheumatism, Gout, Lumbago, Sciatica, this is the way to drive it out of your system in quick time. Simply send your name and address, enclosing this advertisement, to JOHN A. SMITH, 6149 Smith Building, Milwaukee, Wis., and by return mail you will receive the box absolutely free. It is only in "Gloria Tonic" that you can get the above combination ready for use.

Among the constitutional amendments adopted in California was one making the railroad commissioners appointed instead of elected. This is in accordance with what is known as the short ballot system. Referring to this system, the Chicago Record-Herald says: Eight cities or towns in California have likewise adopted the short ballot. Among the other states that have the short ballot in a number of cities and towns are Kansas, Texas, Illinois, Oklahoma, South Dakota, Iowa, Utah and Alabama. The 'idea' is gaining converts in Wisconsin, Colorado, West Virginia and elsewhere. There is every reason why it should appeal to thoughtful voters. The huge ballots are a survival of the absurd spoils system. Responsibility, merit, economy and uniformity of policy are impossible where the long, huge ballot prevails."

Richmond, Va., daily newspapers have been indicted by a federal grand jury on the charge of sending through the mails obscene matter in the publication of the reports of the Beattie murder trial.

A New York superior court has declared two clauses of the state election law unconstitutional. One is the provision requiring personal registration of voters in the rural districts. The other is the section prohibiting a candidate's name to appear in more than one place on the official ballot.

The United States Steel corporation had 3,611,317 tons of unfilled orders on its books September 30.

A Chicago dispatch, carried by the Associated Press, under date of October 11th, says: Secretary of Agriculture James Wilson came to Chicago today to take part in the International Brewers' association and congress, which opens tomorrow in the coliseum.

"The brewers worked to such good purpose that the show, the biggest of its kind ever held, was ready for the inspection of the public today. Ten million dollars' worth of brewing machinery was in place and \$500,000 worth of ornamentation has been set up to show the machinery off.

"There are Norse pillars and posts and 'trimmings' in the coliseum proper, and a bierstube in the annex showing true Norse architectural treatment.

"The beer, lemonades and sandwiches to be sold will be served only at tables in the bierstube. No whisky, gin, wines, cordials or mixed drinks will be found.

"According to the program, the bierstube is to 'show what the management of the exposition holds should be the ideal public house and garden of the future.'

"Exhibits in the exposition come from the United States, Canada, Germany, France, Austria, Belgium and Denmark.

"Perhaps the most interesting of all the exhibits is a \$15,000 miniature brewery in which every process of brewing will be shown, colored water serving as the liquid."

The New York correspondent for the Associated Press says: Resolutions commending the work of Dr. Harvey W. Wiley, chief of the bureau of chemistry; praising President Taft for his exoneration of Dr. Wiley

"from the foolish and unfounded charges made against him," and urging the removal from office of Secretary of Agriculture Wilson, Solicitor McCabe and Assistant Chemist Dunlap, were adopted by the food committee of the national consumers' league here.

Among the reasons advanced in a statement issued by the league's committee for urging the removal of Secretary Wilson are the allegations that he "used his official position to force" the Denver convention and of state and national food and dairy department "to vote in favor of the drug benzoate of soda in food;" that he used his official position to favor the manufacturers of foods, drugs, liquors and medicines; that he allowed the food law to be set aside for the production of glucose labeled as corn syrup; that he was instrumental in giving the solicitor of the department the right to decide whether suits shall be brought for violation of the food law, after samples "have been found to violate the law," and that the law dealing with the labeling of beers "has not been enforced."

Columbus Day commemorating the landing of Columbus 492 years ago was celebrated at Chicago, October 12.

James J. Hill, the railroad magnate, declares that he is opposed to the Aldrich currency plan.

Mrs. Emmeline Pankhurst, the famous English suffragette, has arrived in this country and will help in a campaign to win the ballot for women in America.

A San Francisco dispatch, dated October 12th, says: Woman suffrage has triumphed in California. Straggling returns later wiped out the majority previously recorded against the amendment and since this turn the margin in favor of the amendment has increased steadily. The returns early tonight shows:
For the suffrage amendment, 119,088
Against 117,406

Majority for amendment.... 1,678

The figures represent the returns from 2,717 precincts out of a total of 3,121 in the state. As virtually all of the remaining precincts are in counties which have been given suffrage majorities it is reasonable to suppose they will increase this margin.

So overwhelming was the vote in favor of the other more important amendments—the initiative and referendum and the recall, including the judiciary—that tabulation of the returns was suspended with a third of the precincts remaining unreported. The final count taken showed the following results:

For initiative and referend'm 137,181
Against 44,850
For the recall 148,572
Against 46,296

United States Senator John Works made a statement to the press today in which he declared the outcome of the amendment election to be "one of the biggest victories ever won at the polls in California."

"These are extraordinary remedies, to be used only in cases of extraordinary necessity," he said. "I believe the people of California are wise
(Continued on Page 14.)

When the Stomach Stops

Working Properly, Because there is Wind in It, Use Stuart's Dyspepsia Tablets to Set It Going Again.

A Trial Package Free

The doctors call it flatulency, but unprofessional folks know it as "wind on the stomach," and a most distressing state of things it is. It is a serious condition of this great motor organ. Always annoying and painful in the extreme, at times often leading to bad and fatal results. The stomach embarrassed and hampered with wind can not take care of its food properly and indigestion follows, and this has a train too appalling to enumerate. The entire system is implicated—made an active or passive factor in this trouble and life soon becomes a questionable boon.

All this is explained in doctor books; how undigested food causes gases by fermentation and fomentation in which process some essential fluids are destroyed—burnt up—wasted by chemical action, followed by defective nutrition and the distribution through the alimentary tract of chemically wrong elements and as a consequence the stomach and entire system is starved. Plenty of food, you see, but spoilt in preparation and worse than worthless.

A deranged stomach is the epitome of evil; nothing too bad to emanate from it, but the gas it generates is probably its worst primary effect and the only way to do away with this is to remove the cause. Stuart's Dyspepsia Tablets go to the root of this trouble. They attack the gas-making foods and render them harmless. Flatulency or wind on the stomach simply can not exist where these powerful and wonder-working little tablets are in evidence.

They were made for this very purpose to attack gas-making foods and convert them into proper nutriment. This is their province and office. A whole book could be written about them and then not all told that might be told with profit to sufferers from this painful disease, dyspepsia. It would mention the years of patient and expensive experiment in effort to arrive at this result—of failures innumerable and at last success. It would make mention of the different stomach correctives that enter into this tablet and make it faithfully represent all.

Stuart's Dyspepsia Tablets are not alone intended for the sick, but well folks as well; for the person who craves hearty foods and wants to eat heartily and run no risk of bad effects, they act like a charm and make eating and digestion a delight and pleasure. They keep the stomach active and energetic and able and willing to do extra work without special labor or effort. Don't forget this. Well people are often neglected, but the Stuart Dyspepsia Tablets have them in mind.

A free trial package will be sent any one who wants to know just what they are, how they look and taste, before beginning treatment with them. After this go to the drug store for them; everywhere, here or at home, they are 50 cents a box and by getting them at home you will save time and postage. Your doctor will prescribe them; they say there are 40,000 doctors using them, but when you know what is the matter with yourself, why go to the expense of a prescription? For free trial package address F. A. Stuart Co., 255 Stuart Building, Marshall, Michigan.
