One criticism of the first plan was that there was no way to remove a bank from an association. It has been provided that a local association may suspend a bank which fails to maintain its reserves or comply with other requirements of the law.

It is also provided that the note issue of the association shall at all times be covered by at least one-third in gold and other lawful money. Any notes, however, issued in excess of \$900,000,000 must either be covered by lawful money in full or pay a special tax at the rate of 1 1/2 per cent a year. Any notes issued in excess of \$1,200,000,000 not covered by lawful money will pay a tax of 5 per cent.

Mr. Aldrich, in transmitting the plan to the commission, said that the system of reserves and taxes provided is expected "to insure the maintenance of adequate reserves by the association and otherwise to provide such effective regulation of discounts and note issues as would enable the organization to respond promptly at all times to normal or unusual demands for credit or currency without danger of undue expansion or inflation."

The features outlined are the only substantial changes in the plan as it was submitted tentatively to the commission last January by Mr. Aldrich, although detailed qualifications are introduced at many other points.
