

quest of Attorney General Wickersham for the reservation by the government of right to apply for further or other relief within a period of five years if the plan did not result in harmony with the law, is declared not to be within the authority of the court to grant; that the court does enjoin for a period of three years the twenty-nine individual defendants in the suit from acquiring any additional holding in the companies into which the trust is split, and that the application made by independents for dissolution of the United Cigar Stores company lay outside the authority of the court, but that this did not preclude any independent action later against the cigar stores company as an individual corporation.

The announcement of the court's action was followed almost immediately by the declaration of counsel for several of the opposing independent tobacco interests that an attempt undoubtedly would be made to have the decision reviewed by the United States supreme court.

Regarding the restriction suggested by Attorney General Wickersham that no corporation in the combination shall, during a period of five years, acquire any stock in any other corporations, Judge Lacombe says:

"With a change of phraseology which will make this applicable to all of the fourteen companies, this request is approved. A similar request is found among those submitted by other objectors, with an additional clause forbidding any one of these fourteen companies making loans or otherwise extending credits to any of the others. This suggestion is a proper one, and may be embodied in the attorney general's request."

Somebody is getting ready to tinker with the Sherman anti-trust law. A New York dispatch, carried by the Associated Press says: "President Seth Low of the national civic federation inaugurated an extensive plan by which the federation purposes to get the views of representative men concerning remedial measures to deal with the business situation as it relates to the Sherman anti-trust act. To this end a series of questions was addressed to some 20,000 representative men. The answers will be classified by a committee which includes President Low, William Dudley Foulk of Indiana, Frederick N. Judson of St. Louis, Charles A. Severance of St. Paul, and Edgar A. Bancroft of Chicago.

It is expected that this compilation will be submitted later to the

An Associated Press dispatch says: In order to free the postal rates of a stringent feature in regard to second class mail matter, Postmaster General Hitchcock issued an order granting a full year as the period in which publications, entitled to the second class privilege but on which subscriptions have expired, will be accepted as second class postal rates. This action rescinds the existing rules providing for varying periods of acceptance, ranging from three months to a year, according to the frequency with which the publication is issued. The new regulation will give publishers a greater opportunity to secure renewal of subscriptions.

A Washington dispatch to the Chicago Record-Herald says: For the first time the government asked the supreme court of the United States to proclaim as the law of the land that "running a corner" on a stock exchange is a violation of the Sherman anti-trust act.

The point came up in the oral argument of Solicitor General Lehmann in support of the indictment of James A. Patten, Eugene G. Scales, Frank B. Haynes and William P. Brown on charges of conspiracy on Jan. 1, 1910, to "run a corner of cotton" on the New York cotton exchange. Essential counts in the indictment had been declared erroneous by the United States circuit court for southern New York and the government was arguing for a reversal. Ex-Senator John C. Spooner argued for an affirmance.

An Associated Press dispatch says: Amendment of the Sherman anti-trust law at the coming session of congress is to be undertaken in earnest by democrats of the house, according to a declaration by Representative Henry of Texas, ranking member of the committee on judiciary. Representative Henry's announcement came while President Taft and Attorney General Wickersham were in conference at the white house as to the advisability of supplemental anti-trust legislation. The house democrats, it was declared at the capitol, will push legislation along this line, whatever may be the administration's determination in the matter. In addition to anti-trust legislation, the judiciary committee also has decided upon revision of the injunction statutes and the law regulating contempt cases. "The coming session of congress is by no means to be overshadowed by tariff legislation," said Representative Henry, in speaking of the plans of the judiciary committee. "Of course, the tariff revision will be of the greatest importance, but it will not minimize other matters to come before the house."
