Workers are Busy in Every State

The announcement in last week's Commoner of the new campaign rate has given added stimulus to the organizers of Commoner campaign clubs. Workers are busy everywhere and new club lists are coming in fast.

The low rate of 20 cents for single subscriptions from now until the close of the campaign—or five for \$1—was made especially for the purpose of giving party workers an opportunity of placing campaign literature into the hands of as many voters as possible, and to enable them to do effective political work at the least possible expense to their precinct organizations. Experience has proven that this is a splendid method of increasing the party vote. In large

numbers of precincts there are Commoner clubs composed of from ten to 100 republicans who have never voted the democratic ticket. They are interested in democratic men and measures, this year as never before. Now is the time to get them in line and The Commoner is the best campaign literature to place in their hands.

Why not start this work in your precinct? No matter if one club has been formed, start another. The time is growing short, and the opportunity to assist in this commendable campaign work will soon pass. Make an effort to reach the voters and send a club of new readers. The attached coupon may be used for a club of five or a blank sheet where a larger club is secured.

FIVE FOR \$1.00 CLUB

THE COMMONER, Lincoln, Neb.:

Gentlemen—Enclosed find \$1.00 for which please send The Commoner to the following five new subscribers under your special campaign offer—FIVE FOR \$1.00—from now until the close of the presidential campaign.

If we can only get 'em mad enough at one another perhaps the whole truth about those campaign contributions will come out.

Now that the man who made him has unmade him Mr. Taft should withdraw.

DEFEAT DIX

The Richmond Times-Dispatch voices the sentiments of democrats everywhere when it says: "Democrats over the whole country have a real interest in the New York democratic situation. They defeated Murphy in Baltimore. They want him defeated at home. They want as a candidate for the governorship a man who will help the national ticket, not injure it. The New York World declares that it will not support a Tammany candidate. It is time for the machine to learn that the people are in fact, 'on their mettle.'"

If New York democrats desire to win the confidence and respect of the democrats of other states, as well as of the people of New York, they will see to it that Dix is defeated.
