Washington News

Thirty-three states have notified Secretary Knox of their ratification of the proposed income tax amendment to the federal constitution and four have notified the state department of their rejection. To become effective thirty-six states must ratify. Those who have not notified the department of ratification or rejection are Delaware, Florida, Massachusetts, New Jersey, New Mexico, Ohio, Vermont, Virginia, West Virginia and Wyoming. Connecticut, New Hampshire, Rhode Island and Utah have notified of rejection.

Secretary of the Treasury MacVeagh has issued an order abolishing the time-honored public drinking cup from railroad cars, vessels and other conveyances operated by interstate traffic and from depots and waiting rooms of common carriers. This sweeping order against "any drinking cup, glass, or vessel for common use" effective immediately, is in the interest of the nation's health and was the direct result of an investigation by the United

States public health service—a branch of the treasury department—which holds the drinking cup to be a menace as a carrier of disease. Mr. MacVeagh's action constitutes an amendment to the interstate quarantine regulations.

Arguments were begun before the commerce court on the application of five oil pipe companies for an injunction to restrain the interstate commerce court from enforcing its order requiring them to publish their scale of charges for the interstate transportation of oil. The government

maintains that oil is a commodity of commerce, and that its interstate movement through pipe lines subjects it to the power of congress. Congress has declared that companies transporting oil in states through pipe lines were common carriers and the government counsel maintains they, therefore, must conform to the act regulating commerce.

Lawrence O. Murray, comptroller of the currency, issued a statement indicating that the resources of the banks in the United States, national state and private, are the highest in

history. According to reports of their condition on June 14, the comptroller announced 25,000 of the 29,000 of the banks in the country show aggregate resources of \$24,955,000,000, an increase of \$1,324,000,000 over the resources of 24,000 banks which made returns in 1911. The total individual deposits amounted to \$17,012,000,000, an increase of \$1,105,700,000. The 4,000 banks from which no reports were received by the comptroller were chiefly brokerage concerns with an estimated aggregate capital of \$79,000,000.

Since the \$1,000 Challenge

was made to the giant factories four years ago, why have they not answered? Why have not these factories produced a watch equal to the Burlington? And this challenge did not ask our competitors to produce a watch better than the Burlington. NO. If they should produce a watch equal to the Burlington we should be the losers. Our \$1,000 still lies in the bank for competitors to cover.

No Money Down

We ship the watch on approval, prepaid (your choice of ladies' or gentlemen's open face or hunting case). You risk absolutely nothing—you pay nothing—not one cent unless you want the great offer after seeing and thoroughly inspecting the watch.
