James Bryce, British ambassador to the United States, has resigned and will return to England.

**FLORIDA FARMS**  
That Produce Twenty Profitable Crops

There are few parts of the world which offer the agricultural opportunities that we are offering on our **ARTESIAN FARMS**, situated in Clay County, Florida. Of all Florida this is the locality which will increase in value the quickest. Here is a place to come with your family and establish a home, and if you will put forth the same effort that you are now doing where you are located, you can quickly grow wealthy for you can select one of twenty or more profitable crops that will make you money every year without a failure. This is not a new and wild country, but is in the heart of population, education and refinement. Land values are naturally growing rapidly, and these farms that we are now offering you for \$35.00 an acre will bring \$100.00 an acre before you realize it. We make this statement regarding this territory because we are convinced of its coming greatness.

**DO NOT COMPARE THIS LAND WITH EXPLOITERS' PROPOSITIONS**

The rainfall in this section is ample. The climate is all that could be desired. In fact, here everything that tends to success seems to be pretty well blended. Please do not compare our region in Florida with the numerous localities now being exploited in the public press. We are not a drainage proposition but our land is ready for you to move on and we are glad for you to come as soon as possible. You can immediately begin to grow crops from which you in a very short time can realize large profit. Our soil is a dark sandy loam and is underlaid with a clay sub-soil. We have water and rail transportation. We are within ten to twenty miles of the growing city of Jacksonville. We want agents for this land and we want buyers.
